MYKONOS, THE ART OF *island living*

Part of the **Cyclades in the Aegean Sea**, Mykonos is known for its bright light, whitewashed architecture, and vibrant lifestyle. In Mykonos Town, narrow streets wind between cubic houses, blue shutters, and bougainvillea-filled courtyards, creating a setting that is both traditional and effortlessly stylish. The town is also home to a curated mix of boutiques, local designers, and concept stores, alongside lively cafés and restaurants.

Just a short distance away, **Paraga Beach** sets the tone with clear turquoise waters and a series of small coves. The atmosphere captures the vibrant and cosmopolitan spirit of Mykonos. The area is also home to some of the island's most iconic spots, including Scorpios, known for its lively beachside atmosphere, making Paraga a perfect balance between tranquility and vibrant island life.

LOCATION

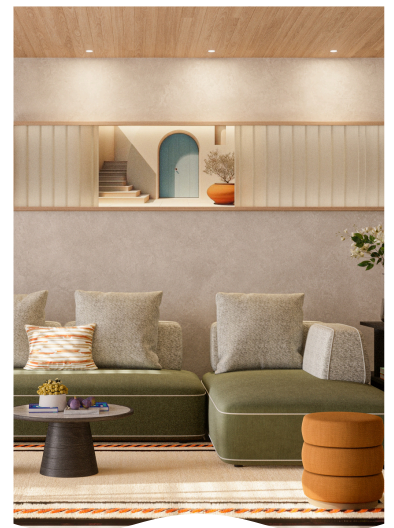

61 SUITES, 3 VILLAS

infinite AEGEAN VIEWS

Perched at the very tip of Paraga, overlooking the endless Aegean Sea, the 3 villas and 61 suites at Fouquet's Mykonos unfold from 33 to 115 sqm, offering a refined expression of understated luxury shaped by space, light, and horizon. The villas extend to as much as 600 sqm offering an elevated sense of space and exclusivity.

Conceived as mineral sanctuaries, they merge effortlessly with their surroundings, where raw textures, warm earth tones, and sculptural lines are shaped by the island's ever-changing light. All suites boast uninterrupted sea views and a dedicated lounge area, creating a fluid, open living experience where interiors extend naturally toward the horizon.

ROCK *spa*

Carved directly into the rock, the **Rock Spa** is a **sensory sanctuary** where time slows down. At its heart, an indoor pool surrounded by raw stone walls creates an immersive experience.

In this refined haven, treatments are enhanced with **Dr. Barbara Sturm**, a pioneering skincare line celebrated for its science-led, anti-inflammatory approach and its ability to restore the skin's natural radiance.

The experience is further elevated by a curated **selection of advanced wellness therapies** including an ice bath, photobiomodulation PBM, an oxygen chamber, a molecular hydrogen room and a flotation tank with hot & ice cold water

A high-angle, back-view photograph of a man floating on his back in the ocean. He is wearing dark shorts with thin white vertical stripes. His arms are outstretched horizontally, and his legs are also outstretched. The water is a deep teal color, and sunlight is reflecting off the surface, creating a shimmering effect. THE ART OF
leisure

Hidden below, an unexpected playground emerges: a basketball court sculpted in stone. Bold and architectural, it transforms every moment into something truly memorable.

Above, the rhythm shifts. Facing the beach and the endless blue, the Pool Bar becomes the hotel's vibrant heartbeat—sun-drenched by day, electric at sunset.

Just steps away, the private beach on Paraga unfolds with double and single sunbeds and parasols, set right at the water's edge—offering a seamless, effortless connection to the sea.
