

OUR FABRICS

Sheer Fabrics

These voiles and Trevira fabrics are delicately woven and have beautifully thin qualities, allowing for light control as well as protection from UV rays, reducing solar heat gain.

Semi-Sheer Fabrics

These fabrics are the epitome of versatility. Moya crosses the bridge between a sheer and a privacy fabric, with excellent reduction of glare, UV and solar gain. A uniform and stable weave.

OUR FABRICS

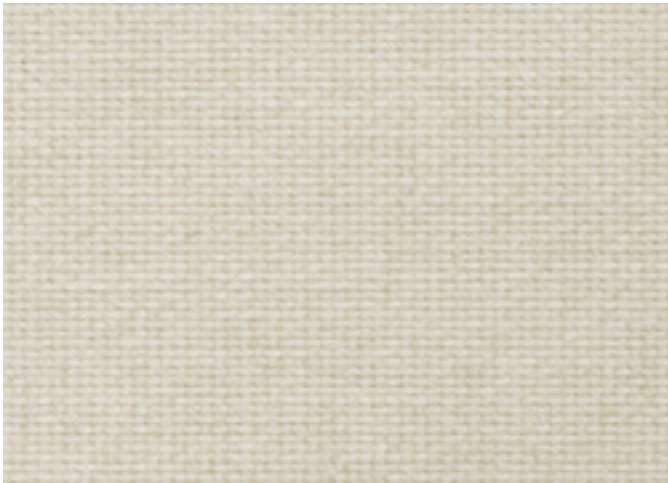

Privacy Fabrics

These heavy woven fabrics are perfect for the more traditional look and will bring a lovely old-fashioned feel of quality to any window.

Blackout Fabrics

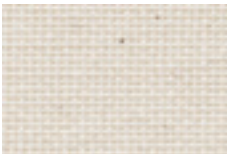

These fabrics are the finest, heaviest high-quality blackout cloth. Natarlis has a little texture in the weave which gives it some visual interest too.
