- The map displays a detailed land use plan for the 'Steg' area. It features a large central area with numerous small, light green plots, likely agricultural or residential. Surrounding this central area are various colored zones: a brown 'Kernzone' (core zone) in the center, an orange 'Hüttenzone' (hut zone) along the edges, and a grey 'Zone für öffentliche Bauten und Anlagen' (zone for public buildings and facilities) near the bottom right. The map also shows a network of roads, including a main road running horizontally across the middle and several smaller roads branching off. A large blue area represents a body of water, possibly a lake or reservoir, located in the lower right. Red lines indicate 'Gefahrenzone rot (überlagernd)' (red hazard zone, overlapping). The map is surrounded by a green border, representing the 'Alpwirtschafts- / Grünzone' (alpine agricultural / green zone). The legend on the left provides a key for all these elements.
