

# Strategic leadership for complex systems.

**Ideal for:**

Mid-to-senior level public servants

**Duration**

10 weeks

**Dates**

Commencing  
October 2026

**Format**

Online

**Cost**

\$19,600 (incl. GST)

A leadership program for senior public sector leaders to strengthen strategic thinking, system leadership and decision-making in complex public environments. **The program focuses on long-term thinking, stewardship and decision-making, helping participants step back from day-to-day pressures to examine how strategy is shaped, influenced and delivered in public sector contexts.**

## What you'll learn

- » Strengthen strategic judgement.
- » Apply strategy to real public challenges.
- » Make informed decisions within complex public-sector environments.
- » Lead across systems and stakeholders.

## Key benefits

### Strategic thinking

Build deeper capability to think strategically, balancing long-term public value with immediate pressures and priorities.

### Stewardship

Explore the responsibilities of stewardship, including trust, integrity and accountability in public leadership

### System leadership

Develop insight into leading across systems, sectors and jurisdictions where authority and influence are shared.

### Peer insight

Learn alongside senior leaders from across Australia and Aotearoa New Zealand, sharing perspectives and experience.
