

SHIELD

DECK SURFACE WATERPROOFING

SAFETY DATA SHEET

PART 1 OF 2: BASE RESIN

1.0 PRODUCT AND COMPANY INFORMATION

Product Name:

Shield BASE RESIN- Deck Surface Waterproofing

Product Type:

Acrylic Emulsion

Manufacturer:

Sabal Green Group
8255 Consumer Court
Sarasota, FL 34240
SabalGreen.com

Print Date:

October 2021

Emergency Telephone Number:

800.222.1222

American Association of Poison Control Centers

2.0 HAZARDS IDENTIFICATION

Form:

Liquid

Odor:

Slight acrylate

OSHA/HCS status:

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910, 1200), this MSDS contains valuable

information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

Emergency Overview:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

Potential Acute Health Effects:**Inhalation:**

Exposure to airborne concentrations above statutory or recommended exposure limits may cause irritation of the nose, throat and lungs.

Ingestion:

Not expected to be harmful under normal conditions of use.

Skin:

May cause irritation with prolonged or repeated contact.

Eyes:

May cause eye irritation.

Potential Chronic Health Effects:**Chronic Effects:**

No known significant effects or critical hazards.

Carcinogenicity:

No known significant effects or critical hazards.

Mutagenicity:

No known significant effects or critical hazards.

Teratogenicity:

No known significant effects or critical hazards.

See section 11 for more detailed information on health effects and symptoms.

Developmental Effects:

No known significant effects or critical hazards.

Fertility Effects:

No known significant effects or critical hazards.

Target Organs:

Review Section 2 and 11 for any additional assessments.

Over-Exposure Signs/Symptoms:**Inhalation:**

No specific data.

Ingestion:

No specific data.

Skin:

No specific data.

Eyes:

No specific data.

Medical Conditions Aggravated By**Over-Exposure:**

None Known

3.0**COMPOSITION / INFORMATION ON INGREDIENTS**

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, which are classified as hazardous to health or the environment and hence require reporting in this section.

4.0

FIRST AID MEASURES**Eye contact:**

Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Skin contact:

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Inhalation:

Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms occur.

Ingestion:

Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

Notes to physician:

No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

See section 11 for more detailed information on health effects and symptoms.

5.0

FIREFIGHTING MEASURES**Flammability of the Product:**

In a fire or if heated, an increase in pressure will occur and the container may burst.

Extinguishing Media:

Use an extinguishing agent suitable for the surrounding fire.

Non Suitable Extinguishing Media:

None known.

Special Exposure Hazards:

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Hazardous Combustion Products:

No specific data.

Special Protective Equipment For Fire-Fighters:

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6.0 ACCIDENTAL RELEASE MEASURES

Personal Precautions:

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).

Environmental Precautions:

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Large Spill:

Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

Small Spill:

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

7.0 HANDLING AND STORAGE

Handling:

Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Storage:

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

8.0 EXPOSURE CONTROLS / PERSONAL PROTECTION**Control Parameters:**

Exposure limits are listed below, if they exist.

Exposure Controls:

None.

Engineering Measures:

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Refer to the current edition of *Industrial Ventilation: A Manual of Recommended Practice* for information on the design and use of exhaust systems.

Hygiene Measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Individual Protection Measures:**Eye/Face Protection:**

Safety glasses with side-shields. Eye protection used must be compatible with any respiratory protection system employed.

Skin / Hand Protection:

Neoprene gloves may provide protection against permeation

Respiratory Protection:

None required under normal operating conditions.

A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements or equivalent must be followed whenever workplace conditions warrant a respirators use.

9.0 EXPOSURE CONTROLS / PERSONAL PROTECTION**Appearance:****Physical State:**

Liquid.

Color:

White milky.

Odor:

Mild.

Odor Threshold:

No data available.

PH:

8 – 10

Boiling Point:

100° C / 212° F

Flash Point:

Non-combustible.

Flammability:

Not applicable.

Upper/Lower Explosion Limit:

Not applicable

Vapor Pressure:

No data available.

Relative Density:

1.01 – 1.03

Water Solubility:

Dilutable

Auto Ignition Temperature:

Not applicable.

Partition Coefficient – n-octanol/water:

Not available.

Viscosity:

Dynamic - 10 – 800 mPa's

Typical % Solids:

46–50% (m)

10.0 STABILITY AND REACTIVITY**Stability:**

The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur.

Conditions to Avoid:

Strong oxidizer

Materials to Avoid:

No specific data

Hazardous Decomposition Products:

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11.0 TOXICOLOGICAL INFORMATION

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

12.0 ECOLOGICAL INFORMATION

Environmental Effects:

No known significant effects or critical hazards.

Other Adverse Effects:

No known significant effects or critical hazards.

13.0 DISPOSAL CONSIDERATIONS

Waste Disposal:

The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

14.0 TRANSPORT INFORMATION

DOT:

Not regulated for transport.

Sea Transport:

(IMO-IMDG0) Not regulated for transport.

Air Transport:

(IATA/ICAO) Not regulated for transport.

This information is not intended to convey all

specific regulatory requirements relating to this product. Additional information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws and regulations relating to the transportation of the material.

15.0 REGULATORY INFORMATION

OSHA Hazard Communication Standard:

This product is considered non-hazardous under the OSHA Hazard Communication Standard (29CFR1910.1200).

Superfund Amendments and Reauthorization Act of 1986 Title III Sect. 311 & 312:

This product is not a hazardous chemical under 29CFR1910.1200, and therefore is not covered by title III of SARA.

Superfund Amendments and Reauthorization Act of 1986 Title III Section 313:

This product does not contain a chemical which is listed in Section 313 at or above the minimum concentrations.

United States TSCA Inventory:

All components of this product are in compliance with the inventory listing requirements of the US Toxic Substances Control Act Chemical Substance Inventory.

OTHER INFORMATION**Hazard Rating System HMIS:****Date of Printing:** 10-OCT-2021**Health:** 1**Version:** 1.1**Flammability:** 0**Physical Hazard:** 0**Prepared by:**
