

Viewing forms on oase.com

Our website uses HubSpot forms. To view our forms, please **accept Marketing cookies** in your cookie settings.

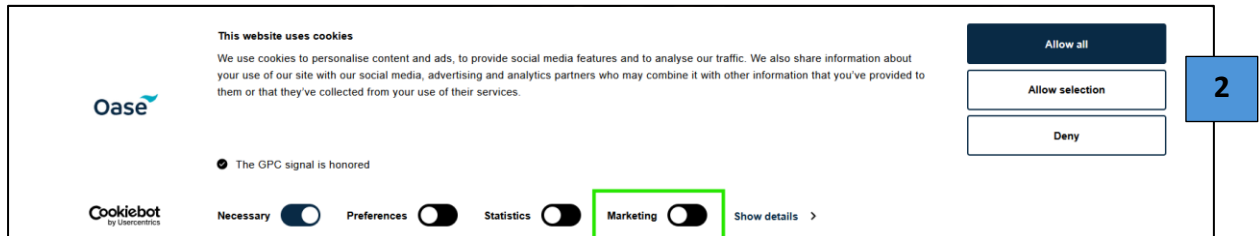

How to enable cookies

When you visit Oase.com you will be greeted with a white cookie consent banner at the bottom of your screen.

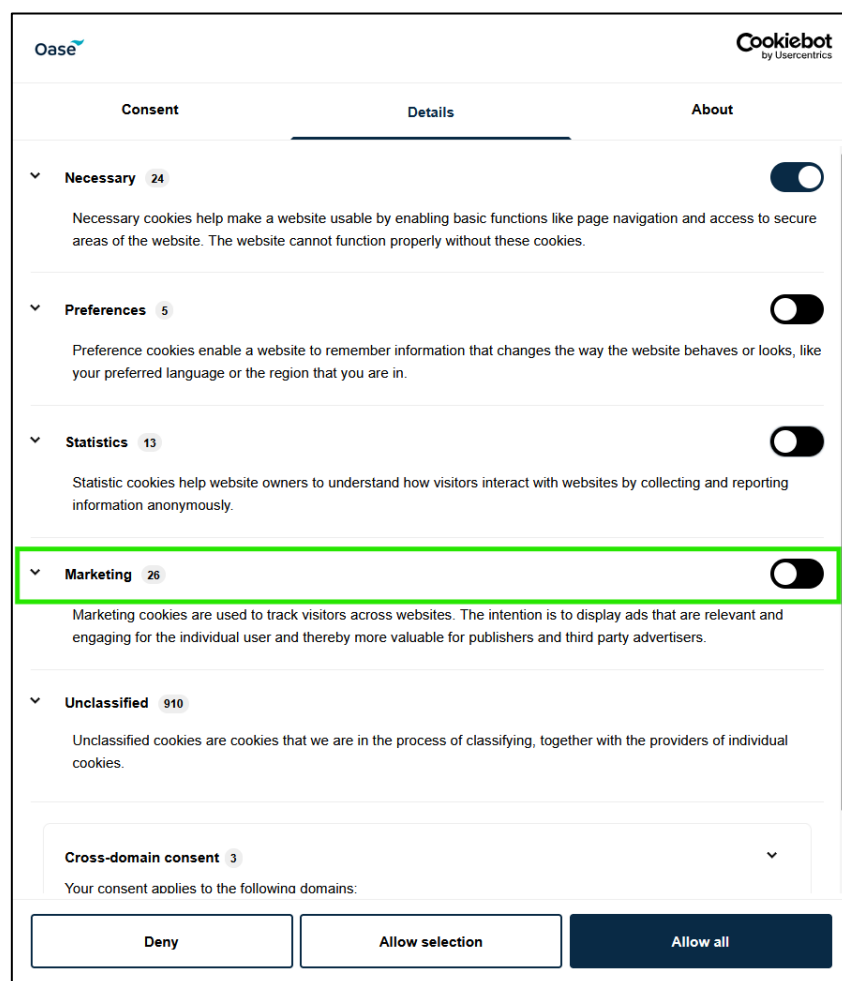

By default, Marketing cookies are disabled. If you click the dark blue 'Allow All' button (Number 1), all website cookies (Necessary, Preferences, Statistics and Marketing) will be enabled.

If you wish to only enable Marketing cookies, click the white toggle button (highlighted by the green box) to switch from disabled to enabled and then press the white 'Allow Selection' button (Number 2), and this will enable all Marketing cookies.

If you click the 'Show details >' link, a pop-up window, as shown below, will appear. Here you can select the Marketing toggle switch and then press 'Allow selection'.

You can return to these two screens to disable Marketing cookies at anytime during your visit to oase.com.

What if I denied cookies when I first visited Oase.com?

If you opted not to accept cookies when you first visited oase.com, the above options are always available to you by selecting the 'Cookie Settings' link in the website page footer. This will start the journey described above.

Note – The 'Cookie Settings' option is visible on all pages in the footer section during your visit to oase.com
