CONTACT 21

Specialising in architectural and structural glazing, we're proud to contribute to some of the most prestigious construction projects across the UK.

We believe that each pane of glass we install is a testament to our unwavering commitment to superior craftsmanship and exceptional service. We collaborate closely with architects, designers, and builders to ensure that every project we undertake is not just completed, but elevated to a new standard of elegance and durability.

Experience the clarity of vision and the integrity of service that define Fluid Glass, where every detail is a reflection of our promise to you.

Craft

THE THING WE LOVE

Care

THE RELATIONSHIPS WE BUILT

Our Values

Our beliefs are deeply woven into our values, guiding everything we create.

CLARITY

Clarity is more than transparency in glass—it's transparency in how we work. We make complex processes feel simple, guiding clients with precision and openness at every step. Through clarity, we create confidence: in the vision, in the craft, and in the outcome.

CRAFT

Craft is where innovation meets timeless skill. Every detail is shaped with purpose, elevating architecture into something enduring and extraordinary. Through craft, we transform ideas into spaces that inspire, perform, and last.

CARE

Care defines the way we build relationships as much as the way we build structures. It's present in every conversation, every decision, and every installation. Through care, we ensure our clients feel valued, supported, and proud of what we create together.

Awards & Recognitions

Our work has been recognised internationally, earning awards and industry recognition for the quality, craft and impact of the projects we create.

Vaidas Vileikis

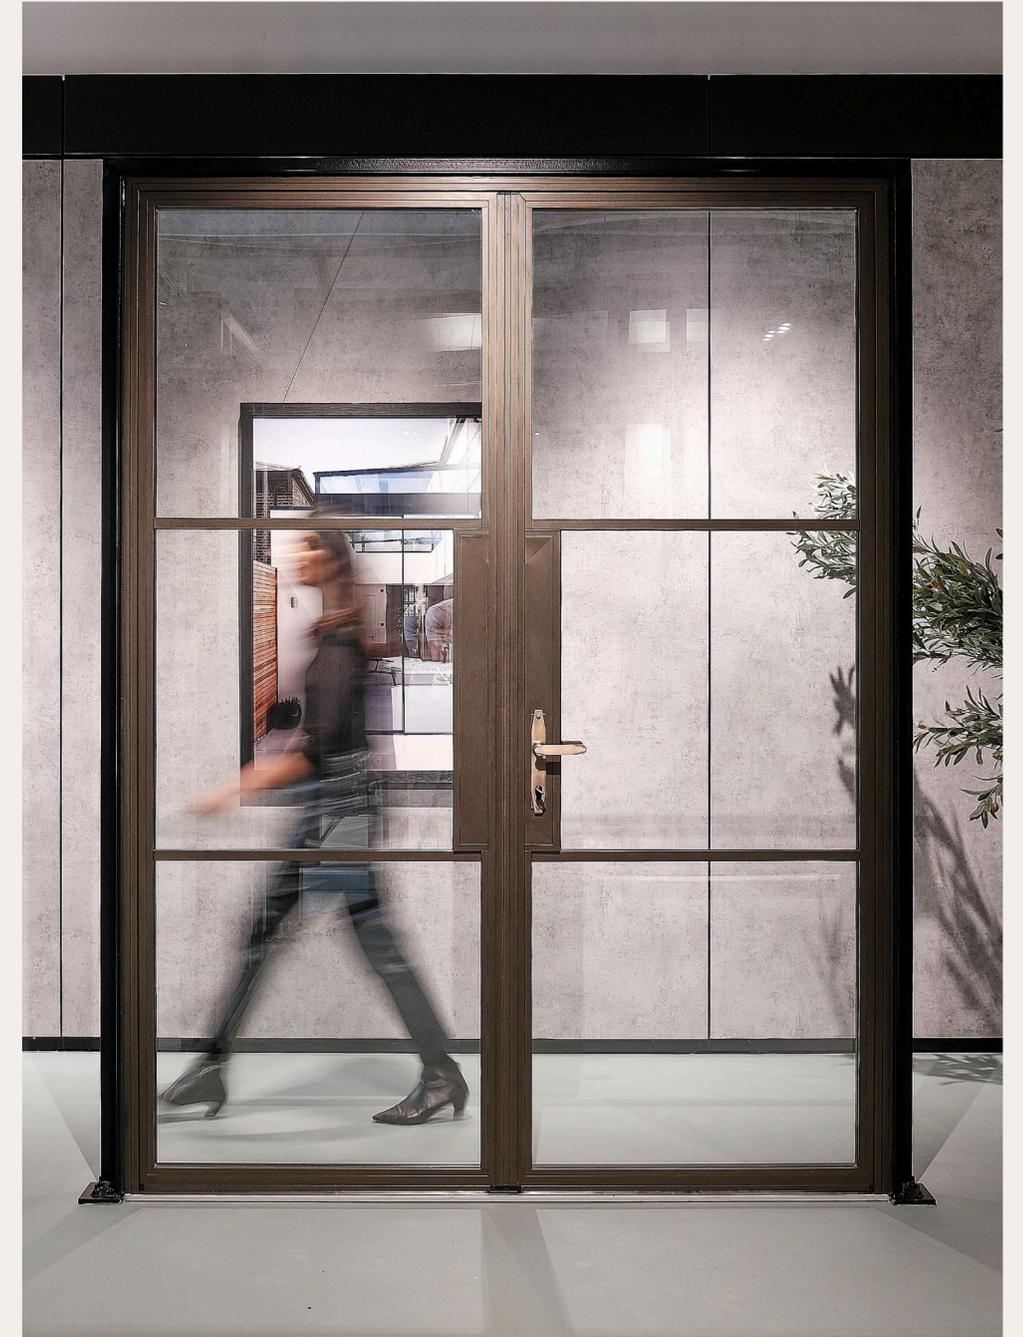

FOUNDER OF NAME ARCHITECTS

“ Unrivalled customer service, cutting edge design and quality. Fluid Glass is firmly lodged in our list of preferred suppliers of glazing products.

Fluid Timeless Doors offer a refined, minimalist alternative to traditional steel framing—combining slim sightlines with contemporary performance.

Ideal for conservation areas and heritage buildings, the system balances period charm with modern functionality. Concealed hinges and a clean, flush aesthetic create a sleek architectural profile, while high-quality aluminium ensures long-term durability, ease of maintenance, and visual elegance.

Information

Fluid Timeless Windows & Doors combine slim 58mm sightlines, concealed hardware, and custom finishes with modern performance. Thermally broken and PAS24 certified, they offer elegant, secure glazing for heritage and contemporary projects alike.

Dimensions

- ◇ Sightlines : 58 mm
- ◇ Max Glass Thickness : 28mm
- ◇ Max Width : 900 mm
- ◇ Max Height : 2400 mm
- ◇ Max Leaf Weight : 60 kg

Options

- ◇ 20mm, 25mm or 48mm glazing bars
- ◇ Designer handles
- ◇ RAL colours
- ◇ Anodised finishes

Features

- ◇ Thermal Coefficient U_w : 1.3 W/m² K
- ◇ Sound Insulation : Up to 36 dB
- ◇ Water Tightness : Class 9A
- ◇ Air Tightness : Class 4
- ◇ Wind Resistance : 2400Pa
- ◇ PAS24

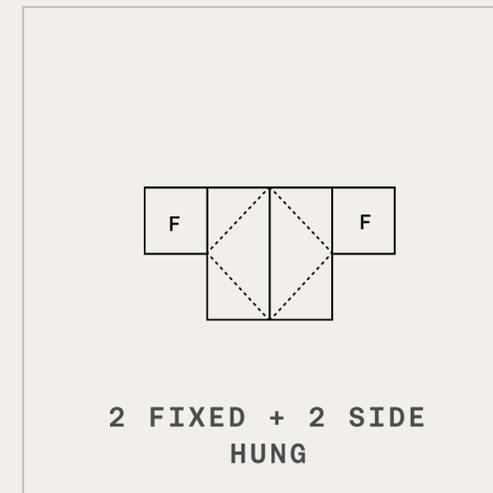

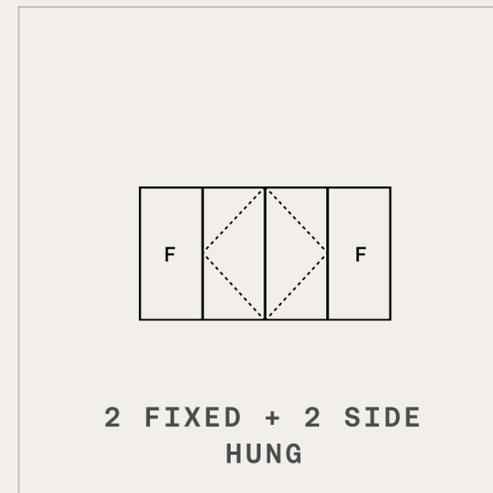

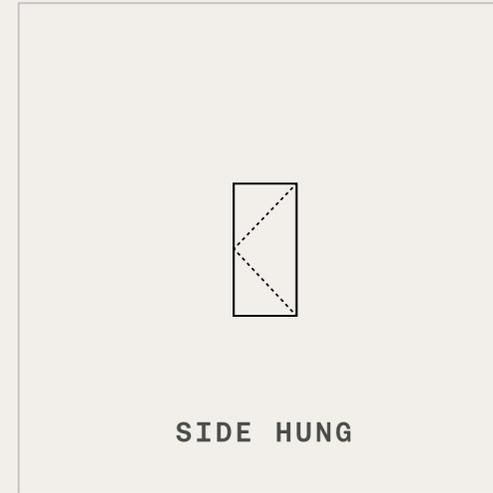

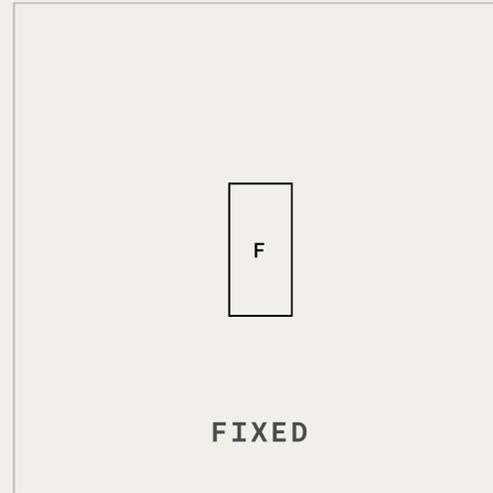

Performance

- ◇ Concealed hinges and handle
- ◇ Minimal frames and sightlines
- ◇ Crittall alternative

- Antique Brass (extra)

Knurled Handles

PVD BLACK

GUN METAL

ANTIQUE BRASS

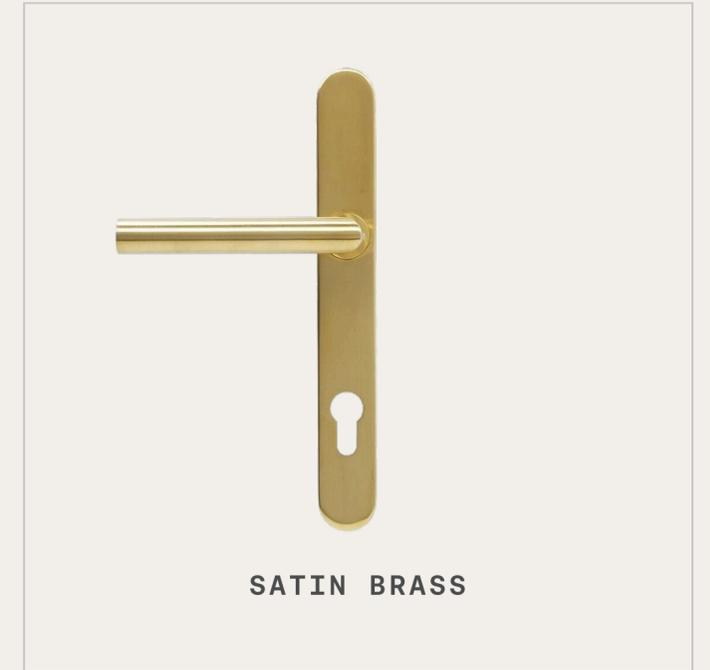

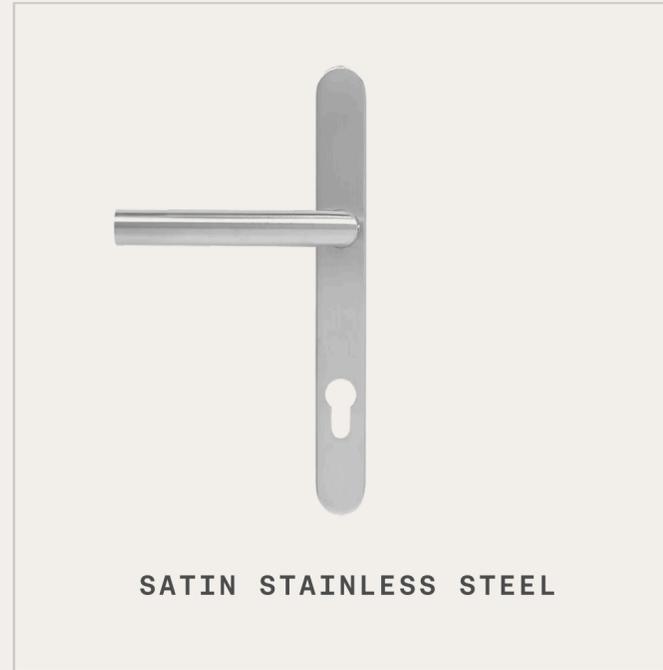

SATIN SILVER

Inline Handles

- Matt Black
- Satin Stainless Steel
- Satin Brass

Designed for Architects

Designed as a modern response to steel-framed fenestration, Fluid Timeless features slim 58mm sightlines and minimal detailing. With door heights up to 2400mm and multiple sash formats available, the system offers flexibility for both residential and commercial applications. Casement windows—side-hung or top-hung—retain traditional proportions while achieving full compliance with contemporary building standards.

Modern Versatility with Heritage Proportions

With side-hung windows up to 1400mm and door heights up to 2400mm, Fluid Timeless suits a wide range of architectural applications. The system's classic proportions, paired with optional 20mm, 25mm or 48mm glazing bars, make it equally at home in period properties and refined contemporary builds.

Discrete Elegance

Minimal frames and concealed hinges offer a quiet, architectural elegance. Whether framing a garden, courtyard or interior view, the design ensures maximum light with minimal interruption—enhancing flow, depth, and rhythm throughout the space.

Every element of Fluid Timeless is designed for architectural clarity. Glazing sits flush within minimalist frames, with options to fully conceal hinges and handles for a clean, unobtrusive finish.

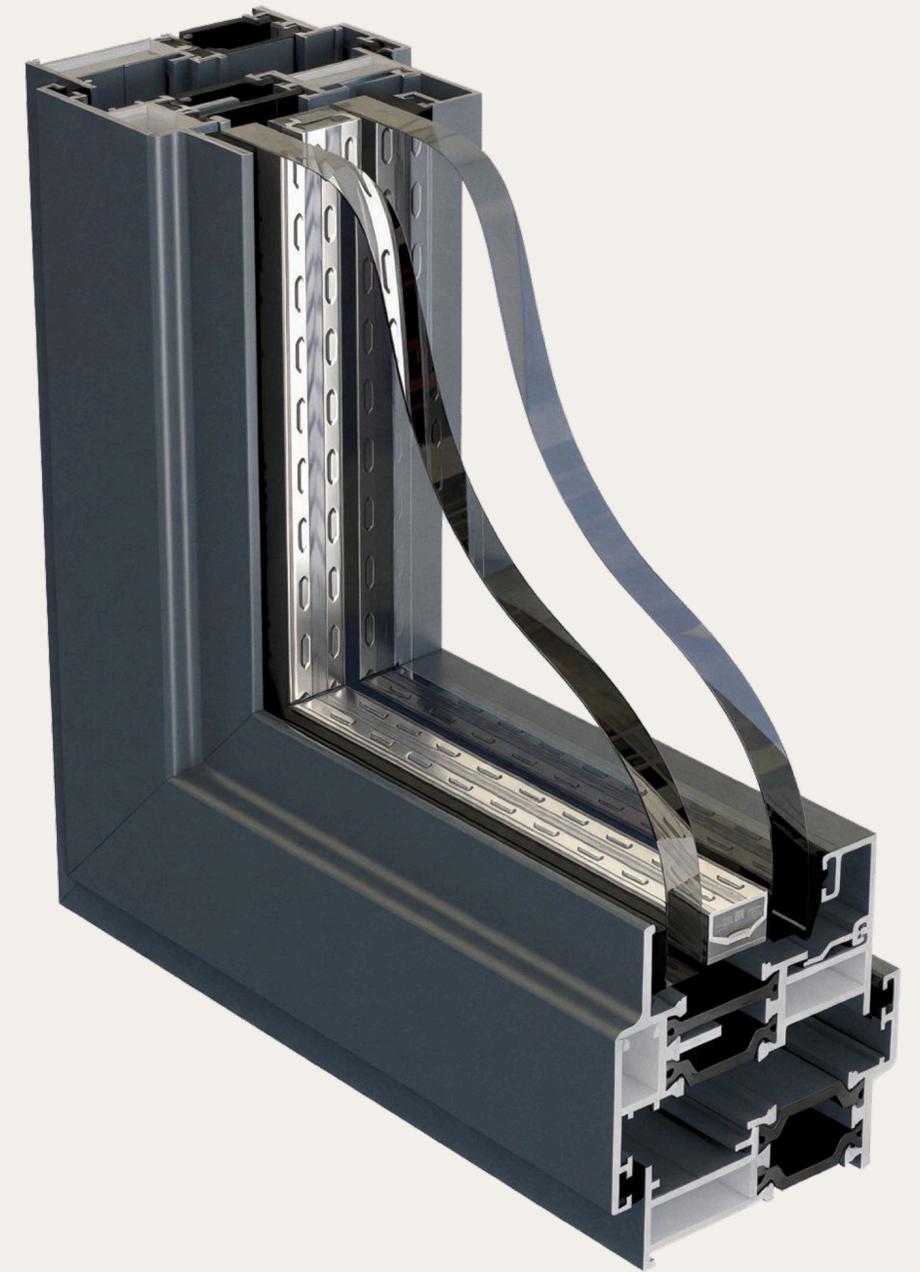

Heritage-inspired hardware such as monkey-tail or bulb handles are available for projects that call for historic character, while modern alternatives suit sleek, contemporary interiors.

Minimalism with Character

Whether chosen for its traditional detailing or contemporary clarity, the system offers a clean, consistent language across windows and doors —making it an ideal solution for projects where understated elegance and technical performance are equally essential.

Tailored Aesthetics

Available in a wide range of RAL colours and anodised finishes, with designer handles and multiple glazing bar options, every element of Fluid Timeless can be customised to reflect the surrounding architecture and client vision.

Beneath its elegant surface lies robust performance. The system is fully thermally broken and achieves U_w values as low as $1.3 \text{ W/m}^2\text{K}$ with up to 28mm glass thickness.

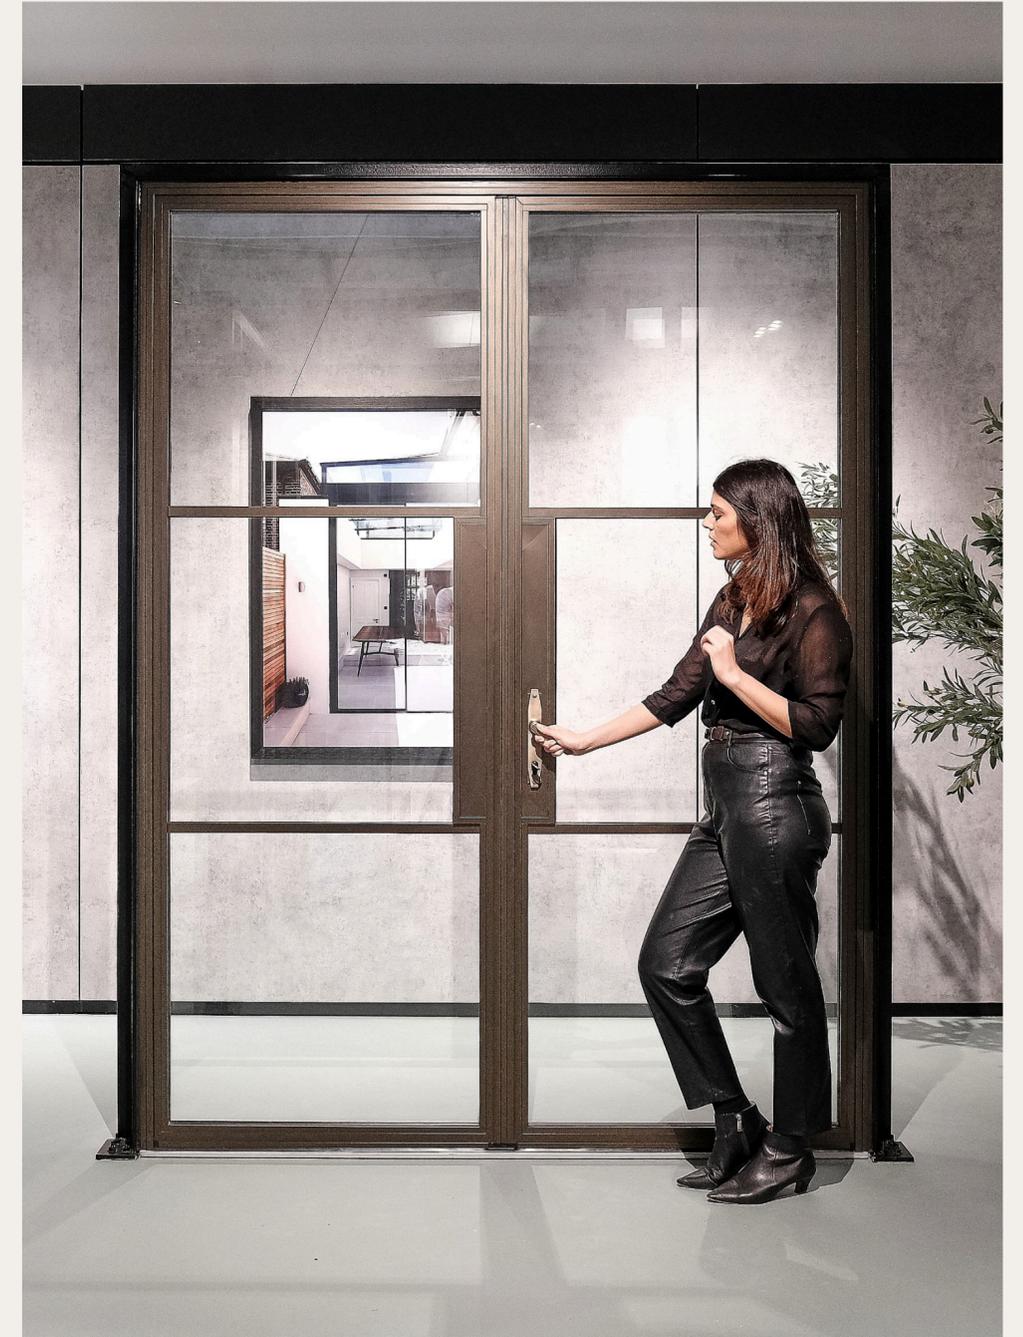

Sound insulation reaches up to 36 dB, while the system meets Class 9A water tightness, Class 4 air tightness, and 2400Pa wind resistance. Security is assured through PAS24 certification. Options for solar control, privacy, low-iron and acoustic glass are available, along with designer hardware and anodised or RAL finishes—ensuring tailored performance and visual integration.

Reliable Performance, Built In

Fully thermally broken, the system achieves U_w values as low as $1.3 \text{ W/m}^2\text{K}$ and sound insulation up to 36 dB. Designed for resilience, it's certified to PAS24 and tested to Class 9A water tightness, Class 4 air tightness, and 2400Pa wind resistance.

Lightweight Strength

The slim aluminium profiles are engineered for durability without visual bulk. With glass thicknesses up to 28mm and sash weights of up to 40kg for windows and 60kg for doors, it delivers effortless operation and long-term reliability.
