CONTACT 17

Specialising in architectural and structural glazing, we're proud to contribute to some of the most prestigious construction projects across the UK.

We believe that each pane of glass we install is a testament to our unwavering commitment to superior craftsmanship and exceptional service. We collaborate closely with architects, designers, and builders to ensure that every project we undertake is not just completed, but elevated to a new standard of elegance and durability.

Experience the clarity of vision and the integrity of service that define Fluid Glass, where every detail is a reflection of our promise to you.

THE TRUST YOU DESERVE

Craft

THE THING WE LOVE

Care

THE RELATIONSHIPS WE BUILT

Our Values

Our beliefs are deeply woven into our values, guiding everything we create.

CLARITY

Clarity is more than transparency in glass—it's transparency in how we work. We make complex processes feel simple, guiding clients with precision and openness at every step. Through clarity, we create confidence: in the vision, in the craft, and in the outcome.

CRAFT

Craft is where innovation meets timeless skill. Every detail is shaped with purpose, elevating architecture into something enduring and extraordinary. Through craft, we transform ideas into spaces that inspire, perform, and last.

CARE

Care defines the way we build relationships as much as the way we build structures. It's present in every conversation, every decision, and every installation. Through care, we ensure our clients feel valued, supported, and proud of what we create together.

Awards & Recognitions

Our work has been recognised internationally, earning awards and industry recognition for the quality, craft and impact of the projects we create.

Vaidas Vileikis

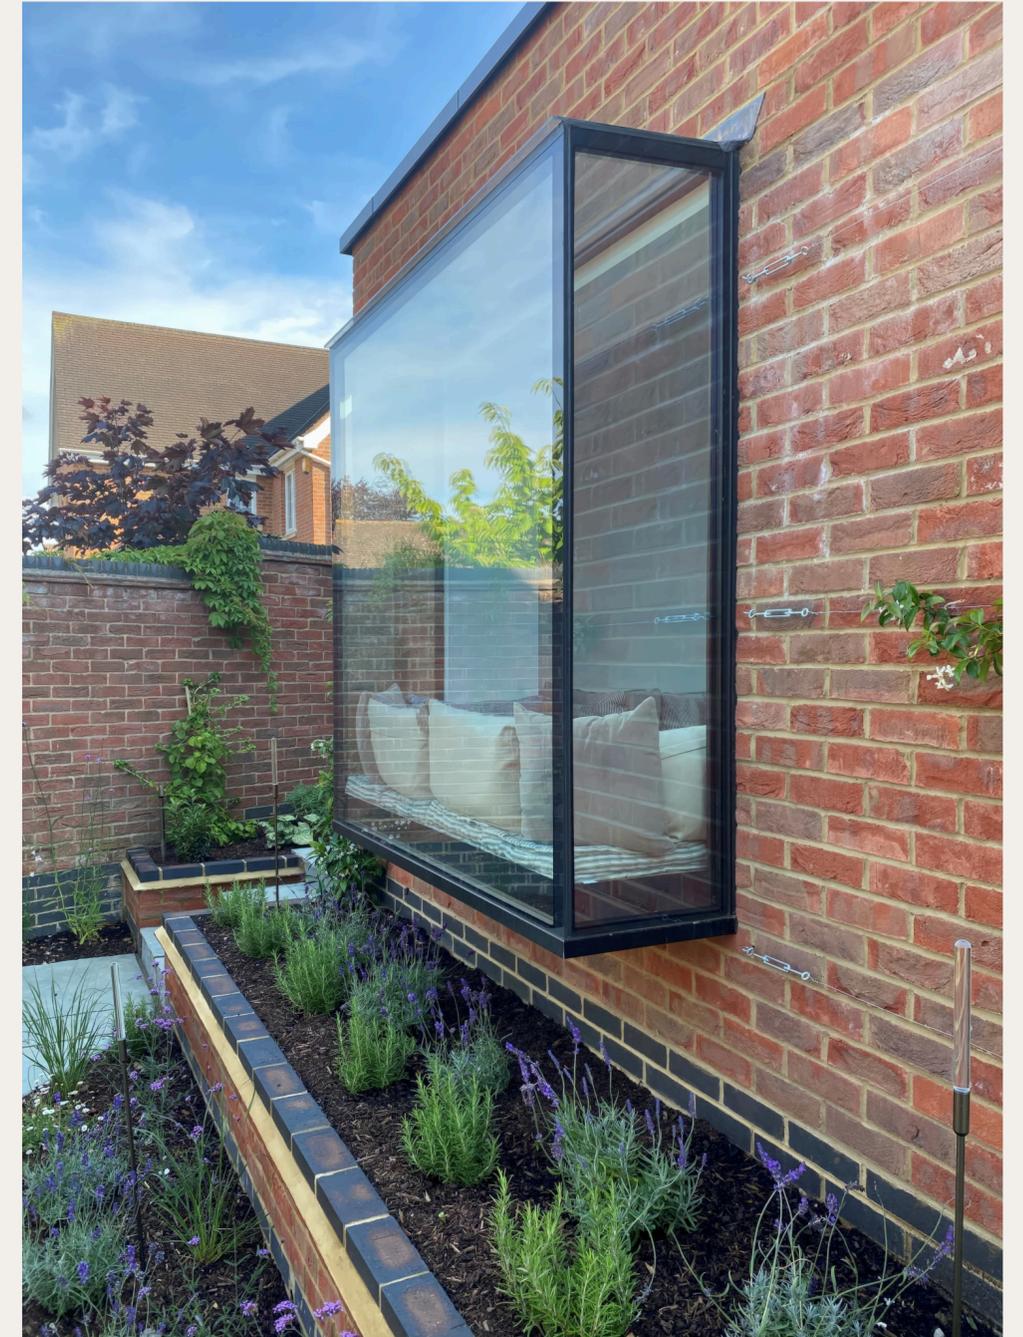

FOUNDER OF NAME ARCHITECTS

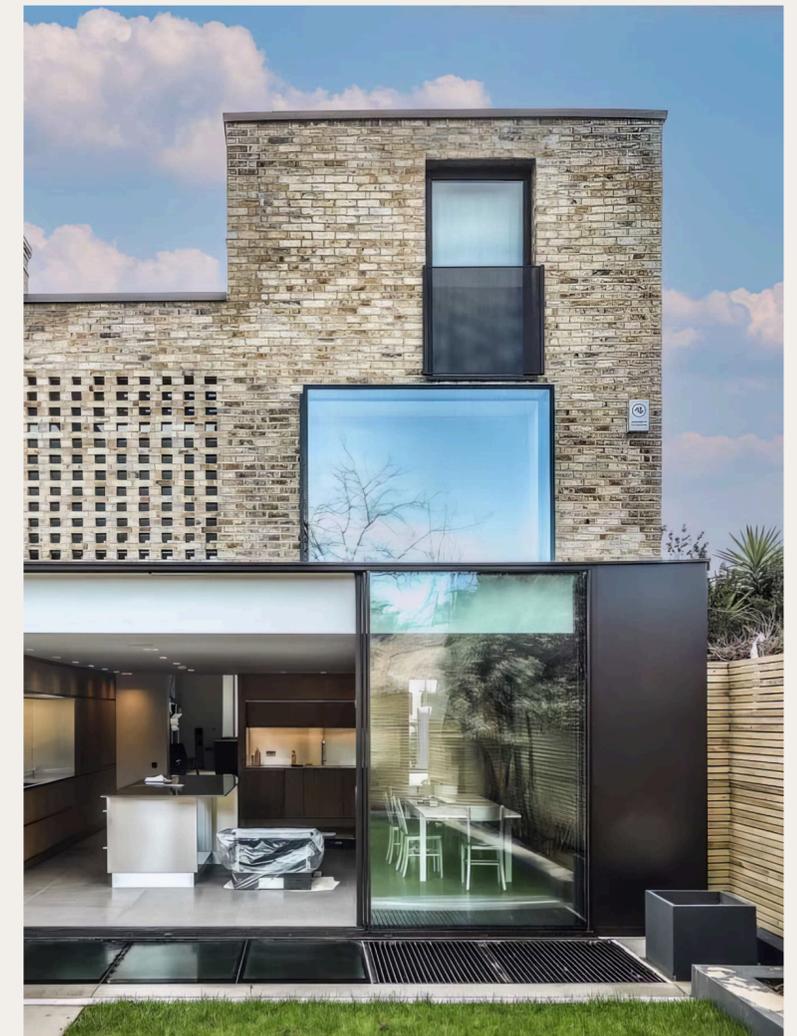

“ Unrivalled customer service, cutting edge design and quality. Fluid Glass is firmly lodged in our list of preferred suppliers of glazing products.

Oriel Windows offer a striking architectural feature that transforms spaces with light, depth, and character.

Extending outward from the building façade, these frameless glass projections maximise natural light while creating a unique connection between the interior and its surroundings. Whether as a cosy reading nook or a dramatic design element, Oriel Windows seamlessly balance bold aesthetics and practical functionality, elevating the way you experience your home.

Designed for Architects

Oriel windows are a timeless architectural feature, seamlessly merging form and function. Their elegant projection extends beyond the façade, drawing in natural light while adding depth and visual intrigue. Whether framing panoramic views or accentuating a building's character, oriel windows create spaces that feel open, refined, and effortlessly sophisticated.

A Celebration of Light

By reaching beyond the façade, oriel windows capture sunlight from multiple angles, filling interiors with a dynamic play of light throughout the day. This thoughtful design reduces reliance on artificial lighting, enhancing both energy efficiency and the atmosphere of a space. The result is an interior that feels bright, expansive, and inherently connected to the changing light outside.

Designed for Living

Oriel windows do more than enhance aesthetics—they extend usable space in a way that is both functional and elegant. Whether creating a bespoke seating alcove, a tranquil reading nook, or a compact yet airy workspace, these projections offer moments of retreat within a home. Their thoughtful integration allows for seamless open-plan living while introducing depth, comfort, and versatility to even the most constrained interiors.

Whether enhancing the ornate details of heritage architecture or complementing the crisp minimalism of modern design, these elegant projections adapt seamlessly to their surroundings.

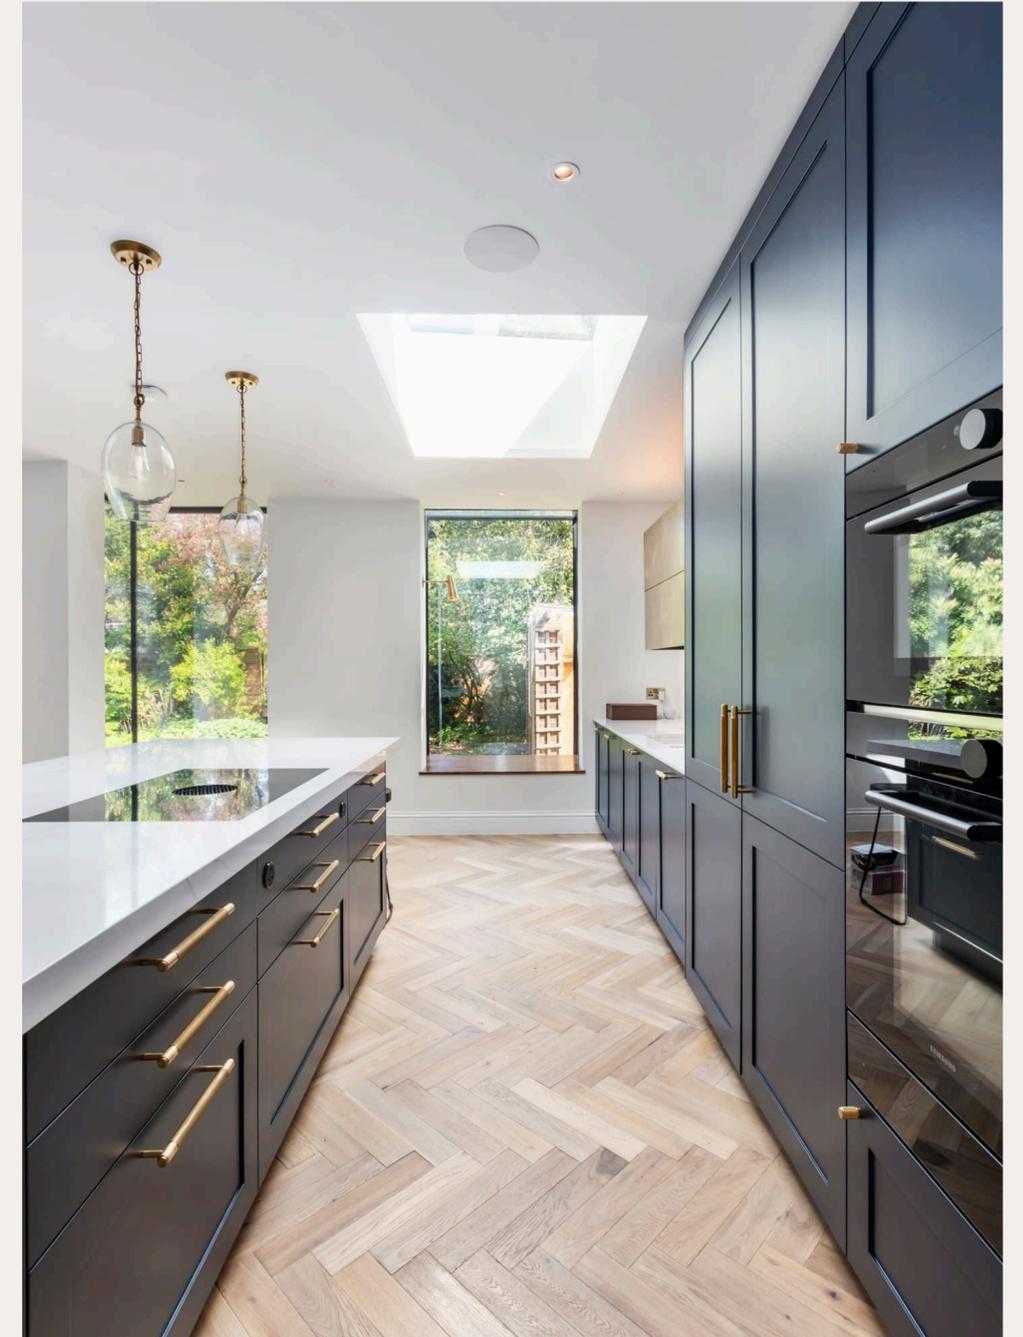

A variety of finishes and glazing options ensure a perfect balance between aesthetic intent and technical performance, allowing each oriel window to integrate beautifully into its architectural setting.

Versatility of Vision

Oriel windows redefine space, transforming both perception and experience. Whether designed as a quiet retreat, a striking focal point, or an architectural statement that draws in light and views, each installation is unique. Their adaptable nature allows for endless possibilities, responding to both the function of the space and the character of the building.

Bespoke Craftsmanship

Every oriel window is a testament to precision and artistry. Designed to marry beauty with performance, these bespoke creations are engineered with meticulous attention to detail, ensuring both structural integrity and a visually striking presence. The result is a perfect synthesis of form and function—an architectural feature that enhances both the building and the way it is experienced.

Great design complements its surroundings. With clean lines and a refined presence oriel windows enhance both period properties and contemporary homes, seamlessly integrating into the architecture while adding a subtle, modern statement.

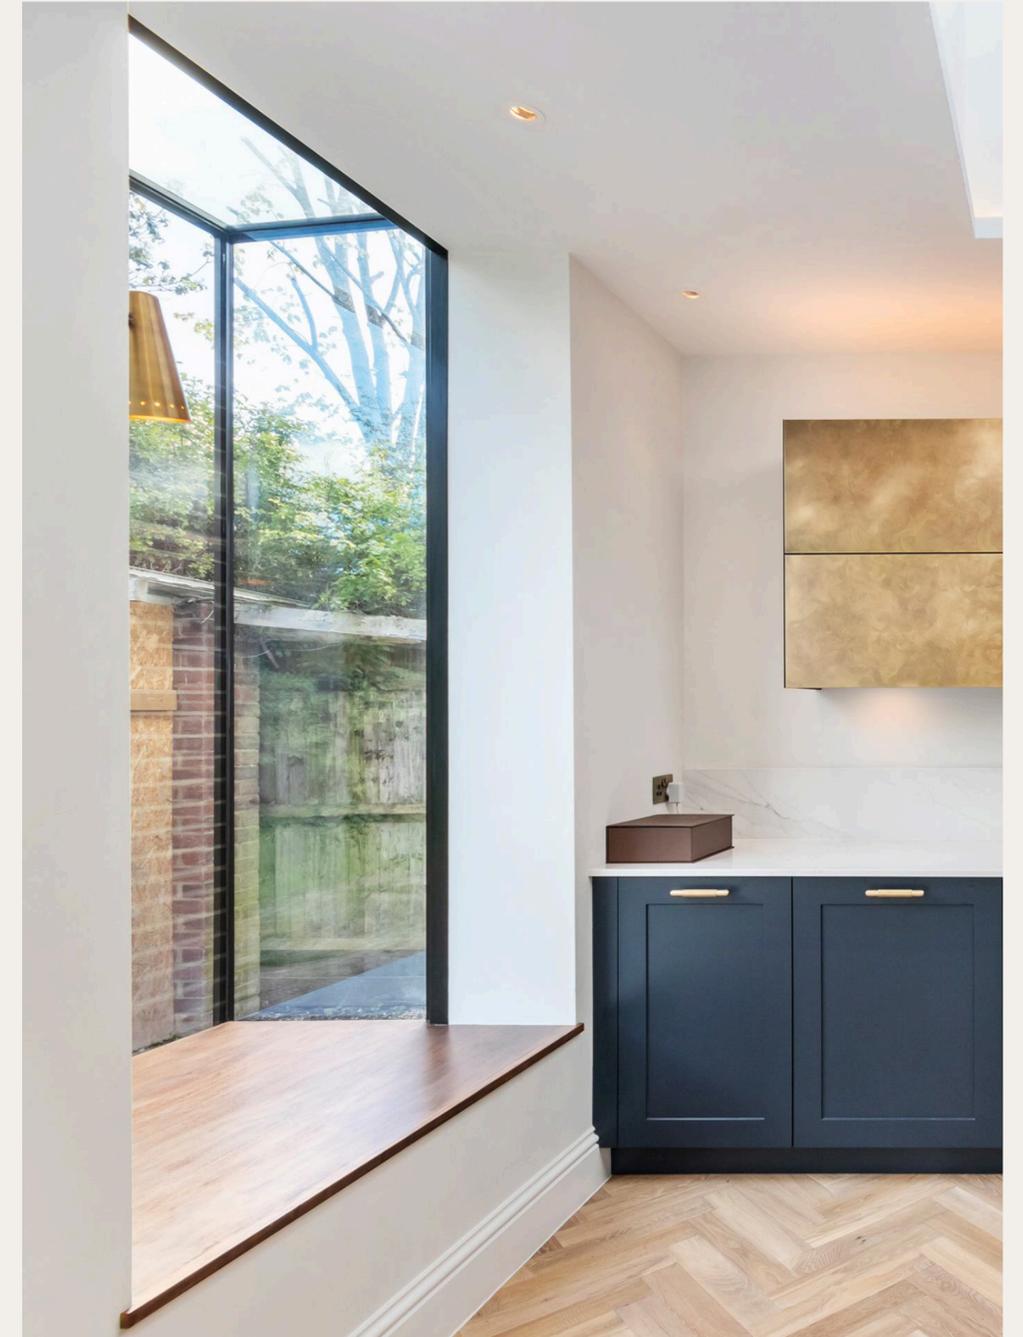

Their balanced proportions and delicate projection create a sense of lightness, enhancing the overall aesthetic without overpowering the building's character.

Thermal Performance

Oriel windows are designed for comfort and efficiency. High-performance double-glazing (1.0 W/m²K) and triple-glazing (0.75 W/m²K) with low-emissivity coatings regulate heat loss and gain, ensuring optimal thermal performance throughout the year. Advanced glazing options, such as solar control glass for temperature regulation and low-iron glass for enhanced clarity, further elevate comfort, making interiors bright, energy-efficient, and effortlessly inviting.

Precision Engineering

Sophisticated engineering allows oriel windows to achieve a striking sense of weightlessness. The strength of laminated and toughened glass enables minimal framing, creating the illusion of floating architecture while maintaining structural integrity. This seamless design maximizes transparency, transforming buildings into luminous, open spaces where light and form exist in perfect harmony.
