

# Management Accountant (Operational Focus)

Leeds, West Yorkshire | Hybrid  
£50,000–£55,000

We're recruiting a Management Accountant to join our finance team. Working alongside senior finance leadership, the role focuses on billing integrity, revenue accuracy and optimising finance systems and processes.

## Key Responsibilities

- Own billing and revenue processes across recurring services, projects, and product sales
- Manage reconciliations, balance sheet integrity, and support month-end close
- Improve AP/AR processes and cash collection visibility
- Drive process improvements and reduce manual workarounds
- Investigate system/process issues and improve operational workflows
- Support stronger controls, reporting accuracy, and cash flow confidence

## About You

- Qualified accountant (ACA / ACCA / CIMA)
- Strong background in operational finance, not just month-end reporting
- Experience with billing, revenue recognition, and reconciliations
- Systems-minded, with a focus on process improvement and automation
- Comfortable working in a service-led or operationally complex business

[→ Apply Today.](#)

---

## What's On Offer

- £50,000–£55,000 salary
- Hybrid working (3–4 days in the office)
- Growing business with strong leadership and clear direction
- Opportunity to shape and modernise finance operations

If you're a Management Accountant looking for a more operational, systems-driven role with real impact - this is a great opportunity to step into something broader.
