

To reinforce our Engineering team in Bicske near Budapest, we are seeking a

PROCESS ENGINEER

[all genders]

Vincotech

Headquartered in Unterhaching near Munich, Germany, we also own and operate a plant in Bicske, Hungary, and maintain sales offices around the world. Our global team of more than 700 people welcomes you to Vincotech, a Mitsubishi Electric Corporation company.

We ambitiously tackle the surging demand for efficient power conversion. Our innovative power modules bring our customers' best ideas to life and facilitate market-leading, energy-efficient applications. With speed and flexibility, we improve people's lives around the world and create a sustainable future. We attribute our international success to our **unstoppable team**.

Our amazing employees leverage each other's strengths and support one another unconditionally to succeed together. **Every individual is key to our exceptional performance**. Each is appreciated and empowered to make the most of their potential. We are motivated and rightly so, for our work is **impactful**.

Our promise to you is clear: **We bring our customers' best ideas to life**. Join us and **empower meaningful ideas**.

To make the best out of your work, we need you to:

- / Set up, roll out and evolve manufacturing processes
- / Boost productivity and pinpoint opportunities to automate tasks in crucial areas
- / Work with detailed specifications and choose the best concepts to implement new and improved processes
- / Identify and verify critical process controls and preventive measures using 8D, 5W, Ishikawa, and SWOT techniques
- / Define areas to improve quality and coordinate changes with actual costs, yield, failure rates and KPIs in mind
- / Select machine suppliers and calculate return on investment
- / Draft and actualize work instructions and teach technical regulations
- / Prepare and update production-related documentation in line with the supplier manual, internal guidelines and applicable standards
- / Train operators and technicians on process standards and improvements

LET'S EMPOWER MEANINGFUL IDEAS!

You are a good fit, if you have:

- / A BSc or MSc in mechatronics or electrical, mechanical or automation engineering
- / Three to five years' experience in a similar position [recent graduates and entry-level candidates are also encouraged to apply]
- / A solid technical background in wire bonding is an advantage
- / A creative, inquisitive outlook paired with a systematic approach to problem solving
- / A collaborative mindset and the ability for working in cross-functional teams
- / Fluent spoken and written English skills and a firm grasp of technical language

Join us and succeed in a winning team:

- / Be part of a company, which is a key enabler of efficient and affordable energy use everywhere, which is one of the most important megatrends of our society and a necessity for generations to come
- / Be part of our motivating company culture where flat hierarchies and quick decision-making are realities rather than wishful thinking
- / Find long-term career prospects, and enjoy an attractive salary and excellent benefits

We welcome your application and look forward to discussing how Vincotech can become your next career choice.
