VINCOTECH BACKS WWK VOLLEYS MÜNCHEN FOR A NEW CHAPTER IN VOLLEYBALL

-- The Unterhaching-based power module specialist continues its sponsorship commitment to local volleyball as Herrsching and Haching join forces --

Unterhaching, Germany, October 20, 2026. Vincotech, a supplier of power module solutions for power electronics, is proud to support WWK Volleys München as a sponsor for the 2026/2027 season. Bringing together the Bundesliga teams from Herrsching and Haching, the new team marks an exciting chapter for volleyball in the Munich region.

Having supported TSV Haching München for several years, Vincotech is delighted to continue its involvement as the two teams unite. The partnership builds on the company's longstanding commitment to the local community and its belief in the power of teamwork, agility and reliable partnerships.

By joining forces, Herrsching and Haching are rising to a shared challenge: establishing Munich as a leading volleyball city. Combining local roots, experience and ambition, the new team aims to bring fresh momentum to the sport.

"We're excited to see two teams from our region take this bold step together," said Vincotech CEO Eckart Seitter. "Bringing together two established teams takes ambition, mutual trust and the determination to achieve more together. These are values we strongly identify with at Vincotech. We look forward to seeing WWK Volleys München develop into a team that challenges the Bundesliga's best."

Max Hauser, CEO WWK Volleys München, states: "We are delighted to have a partner like Vincotech whose steadfast support helps us move forward with our project 'Making Volleyball Big in Munich'. Together, we want to push the boundaries and mark a new era of successful, world-class volleyball in Munich."

With strong roots in the Munich region, Vincotech is proud to support this ambition alongside the team's fans and partners. The company wishes the players, coaching staff and everyone behind WWK Volleys München a successful season together and looks forward to cheering them on at their first home game on October 21 at BMW Park.

ABOUT VINCOTECH

Vincotech, a Mitsubishi Electric Corporation company, designs and manufactures electronic power components. A global market leader in power semiconductor modules, Vincotech understands customers' needs and delivers both off-the-shelf and made-to-order solutions to meet their demands for motion control, renewable energy, and power supply use cases.

The enterprise's corporate philosophy and strategy are rooted in the conviction that sustainable technologies are the answer to many of the challenges posed by global megatrends. Capitalizing on the 700-strong global workforce's stellar electronic engineering and integration skills, Vincotech empowers customers to develop clean, efficient and affordable solutions. Everything the company does is done with the future in mind, to customers' best benefit, and in keeping with its corporate motto, "Fast and Flexible."
