

To reinforce our IT team in Bicske near Budapest, we are seeking a

IT INFRASTRUCTURE TEAM LEADER

[all genders]

Vincotech

Headquartered in Unterhaching near Munich, Germany, we also own and operate a plant in Bicske, Hungary, and maintain sales offices around the world. Our global team of more than 700 people welcomes you to Vincotech, a Mitsubishi Electric Corporation company.

We ambitiously tackle the surging demand for efficient power conversion. Our innovative power modules bring our customers' best ideas to life and facilitate market-leading, energy-efficient applications. With speed and flexibility, we improve people's lives around the world and create a sustainable future. We attribute our international success to our **unstoppable team**.

Our amazing employees leverage each other's strengths and support one another unconditionally to succeed together. **Every individual is key to our exceptional performance**. Each is appreciated and empowered to make the most of their potential. We are motivated and rightly so, for our work is **impactful**.

Our promise to you is clear: **We bring our customers' best ideas to life**. Join us and **empower meaningful ideas**.

To make the best out of your work, we need you to:

- / Lead and coordinate the IT Infrastructure team and support daily infrastructure operations
- / Provide hands-on technical guidance across servers, virtualization, networks, identity, endpoints, backup and monitoring
- / Ensure reliable, secure and customer-focused IT infrastructure services
- / Define and improve practical IT standards, processes, documentation and maintenance routines
- / Support complex technical issues, troubleshooting, root cause analysis and major incidents
- / Coordinate service desk activities and ensure professional, customer-focused IT support
- / Drive improvements through standardization, automation, simplification and infrastructure modernization
- / Work closely with IT, Production, Engineering, Quality and other business functions, as well as external service providers
- / Consider IT security, risk, compliance and operational requirements in infrastructure decisions

LET'S EMPOWER MEANINGFUL IDEAS!

You are a good fit, if you have:

- / A degree in IT, Computer Science, Engineering or a similar technical field
- / At least 7-10 years of relevant IT infrastructure experience, including several years in a senior or lead technical role
- / Strong practical knowledge of infrastructure technologies such as VMware, Windows/Linux, Active Directory/Entra ID, networking, backup and monitoring
- / Experience in coordinating an IT infrastructure, service desk or service delivery team
- / A hands-on, structured and pragmatic approach to solving technical problems
- / Strong communication skills and a customer-focused mindset
- / Good understanding of IT security, risk and compliance requirements
- / Fluent spoken and written English skills

Join us and succeed in a winning team:

- / At a company where reliable and secure IT infrastructure is essential for efficient and successful manufacturing
- / Be part of a motivating company culture where practical solutions, teamwork and quick decision-making are highly valued
- / Take a hands-on leadership role where you can combine technical expertise with team coordination and continuous improvement
- / Find long-term career prospects and enjoy an attractive salary and excellent benefits

We welcome your application and look forward to discussing how Vincotech can become your next career choice.
