

HSM PET FluidEx 600

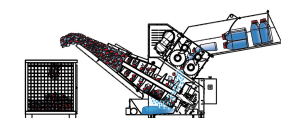

Quickly and reliably, the HSM PET FluidEx 600 empties full PET bottles and cartons / cans or drink which have been incorrectly filled or labelled or in situations where the minimum shelf life has been exceeded. The containers thrown in via the loading funnel are pulled in by the 2-roller mechanism and almost completely emptied. Small pieces of plastic and labels are removed from the liquid using a filter system and the liquid is then discharged using a dedicated system. The hinged loading funnel means that the machine can be easily cleaned. A high performance, low space requirement and the possibility to integrate the machine into existing recycling processes are the decisive advantages of the HSM PET FluidEx 600.

Technical data

Order number:	1985134	Throughput (1l bottle/h):	10000
EAN	4026631063852	Method of loading:	manual
Driving power:	7 kW	Width x Depth x Height:	1215 x 3304 x 1775 mm
Voltage / Frequency:	400 V / 50 Hz	Weight:	1150 kg
Working width:	600 mm		
Loading height:	1270 mm		

Product information

Perforation of full PET bottles, carton based packaging containers and cans

Throughput per hour up to 10 000 PET bottles (1 litre)

Both manual and automatic filling possible

Durable and robust

Cutting unit made of specially hardened steel, other machine frame parts made of stainless steel.

Draining

Specific discharge system for liquids via hose or pump available.

Easy to clean

Easy to clean due to inspection door and hinged outlet chute.

Combinable

Ideal as complement to the HSM baling presses.

Functional operator control panel with LED indicator

Intuitive, multilingual operational guidance via graphic description.

Sturdy design

Very low space requirement thanks to compact and sturdy design.
