

Stay Compliant, Operational + Protected

With Daylighting + Life Safety Inspection
Services from Kingspan Light + Air

Preferred service partner inspections for skylight
integrity and smoke vent compliance—
delivered nationwide.

PROTECT YOUR PORTFOLIO FROM RISK

Across large facilities, skylights and smoke vents are critical—
but often unmonitored.

KLA provides scalable inspection services that help you:

- **Meet IFC 910 & NFPA 204** requirements
- **Prevent leaks** and asset damage
- **Reduce compliance and operational risk**

Skylight Integrity Inspections

Ensure skylights remain watertight and structurally sound.

- Visual inspection of glazing, seals, flashing, and framing
- Identification of leaks, degradation, and safety risks
- Photo documentation and condition-based reporting
- Serialized asset labeling

Result: Prevent costly water damage and extend roof system life.

Smoke Vent Compliance Inspections

We offer compliance inspections that are aligned
with IFC 910 and NFPA 204, with two service levels:

Visual Inspection

- Condition check of vents, hardware, seals,
and obstructions
- "Visually Compliant / Non-Compliant" classification

Full Operational Testing

- Open/close functionality verification
- Testing of release mechanisms
- Confirmation of proper activation and reset

Other items included are a detailed compliance report,
photo documentation (open/closed where applicable)
and serialized inspection stickers.

Result: Confidence your systems will perform—
and pass inspection.

BUILT FOR MULTI-SITE PORTFOLIOS

Our nationwide coverage means easy access and consistent standards, as well as:

- Flexible service levels based on AHJ requirements
- Scalable pricing across multiple locations
- Centralized digital reporting for visibility

LONG-TERM BENEFITS

Regular inspections can help you avoid the hidden costs of deferred maintenance.

- Helps prevent damaging leaks
- Allows for early diagnosis of possible equipment failures
- Reduces the likelihood of costly emergency repairs
