Name: _____ Date: _____

Explore like a DINOSAUR

Trackway Lab Log

Vocabulary Check

- Trace Fossil: A mark of a creature's everyday activities, rather than the creature itself (e.g. nest, footprint, scat)
- Impression: The mark left when I stomp in the fossil mud
- Trackway: The path of footprints I made
- Prototype: My cardboard dinosaur foot design
- Bipedal: Walking on two legs (like a T-Rex or Acrocanthasaurus)

Lab Observations

- Gait: Was your dinosaur walking slowly, normally, or running?
- Depth: How deep are your prints?
- Attachments: Did your Makedo connections stay sturdy?

Sketch Your Print

Sketch what your dinosaur footprint and human footprint looked like in the fossil mud below
