

Research Notes

Name: _____

Make a Research Plan: Before you start designing your Makedo project, you need to research your topic! You can find information in books, on databases, or on trustworthy sites.

1. **Choose your topic** and note any questions you want to answer.
2. **Plan your research.** Consider where to find facts to help you answer your question and make a plan.
3. **Look for answers and write notes** as you read about your topic. Remember to write in your own voice.
4. **Cite your sources.** Document where you found information to share with your teacher, but also in case you need to look back into the resource to take more notes.

Question: Write your own questions here. Remember to use “how” and “why” questions!

Notes: Read about your topic and take notes in your own words. It’s okay to write in fragments when notetaking.

Source: Where did you find this info? Write down the book title and author or URL of the site.
