**Artemyn Strengthens Its ESG Performance:
EcoVadis Silver Medal Retained and Overall Score Improved to 77**

We are delighted to announce that Artemyn Minerals France SAS (Group) has once again ranked in the **top 15%** among all companies assessed by EcoVadis in the last 12 months.

We have solidified our Silver medal while elevating our Overall Score from 72 to 77 points.

This achievement is particularly significant as we have successfully navigated our transition from a Medium-sized to a Large-sized company (1,000+ employees). Excelling under the substantially more rigorous and demanding assessment criteria of this new tier underscores our commitment to innovation, sustainable growth and operational excellence.

Our 2026 overall scores:

- 90/100 – Environment
- 81/100 – Labour & Human Rights
- 68/100 – Ethics
- 60/100 – Sustainable Procurement
- **77/100 – Overall Score**

“Our initial application last year provided valuable insights into areas for improvement. Consequently, we established our Sustainability Improvement Committee, published our inaugural Sustainability Report and successfully elevated our Ecovadis overall score this year. This accomplishment is a reflection of a cohesive global effort of which we are immensely proud.” says Nilesh Shah, Artemyn’s CEO.

EcoVadis is a globally recognised assessment platform that rates businesses' sustainability based on four key categories: environmental impact, labour and human rights standards, ethics, and procurement practices.
