Statement regarding the US Dodd-Frank Wall Street Reform and Consumer Protection Act, section 1502 “Disclosures on Conflict Material in or near the Democratic Republic of Congo”

The most commonly mined minerals are cassiterite, tantalum, tin, tungsten, wolframite, coltan, and gold.

We confirm that to the best of our knowledge, products supplied by Non Standard Socket Screw Limited do not contain conflict minerals from the Democratic Republic of Congo.

Non Standard Socket Screw Limited supports this U.S. Bill, and we work in partnership with our raw material suppliers, sub-contract platers and other suppliers to ensure our products remain Democratic Republic of Congo conflict mineral free.

Should you require any further information, please do not hesitate to contact me.
