BUSINESS SCHOOL

Undergraduate Global Careers Report

Future-Proof Your Career in the Age of AI

The promise of higher education used to be simple: get the degree, then get the job. In 2026, more than ever, that promise is under threat.

Recent data shows that 89%* of HR leaders avoid hiring recent graduates, citing a lack of global mindset and team working skills, no real-world experience, and poor business etiquette. At the same time, AI is absorbing the entry-level jobs that once offered grads a foot in the door. In fact, nearly 40%* of organizations say they would rather use AI than hire a grad.

At Hult, we've designed our programs to turn those stats on their head. We don't see AI as a threat to your career, but as a reason to skill up and double down on what makes you uniquely human. We focus on equipping you with today's most in-demand professional and technical skills—including AI fluency—alongside honing the skills that can never be automated.

Through learning by doing, real-world global experience, integrated personal development coaching, and one-to-one career support, we prepare you from day one to excel in a job that might not even exist yet.

The outcomes in this report are proof of what you can expect when you choose to learn with us.

Best wishes,

Martin Boehm

Executive Vice President
& Global Dean of
Undergraduate Programs
Hult International Business
School

How We Get You There

Rather than a final-term afterthought, career development is integrated into the entire undergraduate experience at Hult.

“There is no one-size-fits-all approach to career development. By developing yourself from every angle, with the Hult careers team as your guide, your goals can gain the strategy and support needed to lead to your success.”

Dawn Gallt Watson, UK
Head of Careers

We start by asking: Who do you want to be by graduation?

Then, we help you map your trajectory through academic choices, high-impact internships, and global networking opportunities.

The result? You'll graduate with a documented **track record of career-relevant experience** and an understanding of your unique value in the global job market.

Integrated career support at Hult

- **1:1 career advising:** Strategic guidance on market research, networking, and interview prep
- **Student development coaching:** Individualized support focused on your mindset and strengths
- **Active employer engagement:** Direct access to industry leaders through campus visits, internships, career fairs, and live business challenges
- **Global visa support:** Expert assistance navigating post-graduation work options, including OPT in the US and the Graduate Route in the UK
- **Skills workshops,** tools, and dedicated job-search resources are always available including sessions on resume writing, online profiles, personal branding, and mock interviews

Coaching You to Confidence

No one stumbles into success alone. Elite athletes and Fortune 500 CEOs have long benefited from one-to-one coaching to support high performance. We think you should, too.

The human touch

You'll be matched with a student development coach from your first term at Hult. Unlike a traditional undergraduate advisor, your coach invests holistically in your success as a person and as a future professional.

They help you contextualize your learning in terms of your long and short-term goals, navigate challenges, lean into your strengths, and continuously improve through regular, required sessions throughout the academic year.

Your personal development plan (PDP)

This is a living document, built with your coach, to turn your intentions into measurable actions:

- **Map skills:** Align your strengths with academic and career targets
- **Refine goals:** Review and update your trajectory each term
- **Stay accountable:** Check in on challenges and document growth

“If you want to see true success and development, you have to invest in students as whole people—not just students.”

Maxted Neal, UK
Senior Director, Student Development

Success Built Step by Step

From your first term, you're already preparing for life after Hult. Our approach to career development builds your confidence and capability year by year, so you graduate ready to step into the role you want.

Year 1: Discover your direction

Collaborate with your coach to uncover your strengths and passions. Start your personal development plan, build foundational skills, and explore your ambitions.

Year 2: Build & explore

Gain experience through practical challenges built into your degree and internships. Test your skills in the real world and broaden your perspective with optional global campus rotation.

Year 3: Specialize & network

Hone your leadership skills and deepen your expertise with specialized electives. Build employer connections through campus events and networking opportunities.

Year 3/4: Accelerate with purpose

Deliver a capstone project to enhance your professional portfolio. Refine your personal brand, get targeted in your job search, and graduate with a clear plan and the confidence to make your mark.

Included each year:

Personal development plan

One-to-one coaching

Skills workshops

Career advising

The Internship Advantage

We believe in the power of learning by doing. Internships offer the ultimate opportunity to embed your learning and prepare for the real world of work.

Global opportunities, real impact

With campuses based in some of the world's most influential global cities, Hult students have unparalleled access to opportunities at both multinational companies and innovative startups.

We encourage internships throughout your program and offer the flexibility to earn academic credit for your professional work. Our dedicated careers team provides one-to-one support in helping you secure high-impact internships, from refining your resume to ensuring necessary work authorization.

Career Pathways for Hult Grads

Our graduates have gained a reputation for being globally minded, collaborative, critical thinkers unafraid to take risks. That's what puts them in demand with top employers and helps them thrive as entrepreneurs.

A Hult bachelor's degree opens doors to limitless opportunities across borders and industries. Here's a snapshot of the different directions our most recent grads have gone.

Top industries		Top roles & functions	
Financial Services	26%	Marketing/Sales	44%
Consumer Packaged Goods	16%	Finance/Accounting	28%
Consulting	11%	Operations/Logistics	11%
Manufacturing	9%	Consulting	8%
Media/Entertainment	9%	Administration	3%
Technology	7%	General Management	2%
Non-Profit	6%	Human Resources	1%
Government	4%	Other	2%

At Hult, you'll define your own path.

Every journey looks different, but if you have an idea of where you might see yourself—whether in tech, finance, policy, entrepreneurship, or elsewhere—the following pages will give you real examples of what's possible after graduation.

Computer Science & Technology

AI, robotics, and digital transformation are reshaping every industry. For those ready to lead at the forefront of innovation, our undergraduate programs will equip you with the critical combination of deep technical fluency and practical business acumen.

Fast facts

AI market projected to hit 4.8T USD by 2033

Projected net increase of 78 million jobs by 2030, driven by rapid tech changes

The data analytics industry is projected to have a compound annual growth rate (CAGR) of 27.6% between 2025 and 2035

Relevant programs

Bachelor's in Computer Science for Business

For those building at the intersection of tech and business

Bachelor of Business Administration

Alumni Success Stories

When you join Hult, you become part of a global network of ambitious changemakers. Our graduates are making an impact across the world, building careers, launching companies, and transforming communities, thanks to the skills and connections they built during their degree.

**Maria Susana
Castellanos**

Venezuela
Class of 2023
Associate Consultant,
Mastercard

In less than three years, Maria's career has spanned two continents and three industries—a testament to her resilience and adaptability. After graduating, Maria turned her student internship into a full-time role in Boston. After her OPT, she stepped into a role coordinating assistance for refugees at the UN Refugee Agency, before shifting gears to consulting for Mastercard in Bogotá, Colombia.

"My biggest advice is: don't be afraid to pivot. My career has moved across education, humanitarian aid, and consulting, and that flexibility was possible because of the transferable skills I gained at Hult."

Vincent Mostert

Belgium
Class of 2024
Customer Success
Sales Engineer,
Datadog

Vincent's journey began with launching his own consulting company, specializing in business analytics and brand strategy. From there, he undertook an internship at SAP LeanIX, where he went deep into the technical side of customer data, which prepared him to excel in his current role at Datadog in Boston. He credits his time at Hult for teaching him how to turn data into action and combine technical expertise with core human skills.

"I learned how to translate technical concepts into business value, which helped create trust and long-term partnerships, something I rely on every day in my career."

Maksat Mametjumayev

Turkmenistan

Class of 2023

Credit Analyst, Flagstar Private Bank

Maksat built a strong foundation for a career in banking and finance by making the most of opportunities inside and outside the classroom at Hult, including participating in the Harvard Global Case Competition. The experience taught him the value of adaptability and strategic thinking in a fast-moving financial environment. Since graduation, he has progressed quickly from an entry-level position to a full-time role and promotion to credit analyst at Flagstar Private Bank in New York.

“Be proactive and intentional about your growth early in your career. Take advantage of every resource available at Hult—career services, competitions, professors, and alumni networks.”

Emilia Simpson Urrutia

US & Chile

Class of 2024

Innovative Finance & Insurance Consultant, Environmental Defense Fund

Emilia has embraced the challenges of a non-linear career path with resilience and intellectual curiosity. Always guided by a deep sense of purpose to make the world better, she persevered through visa constraints to secure a role at the Environmental Defense Fund. Working at the intersection of climate and finance, she has found herself stretched outside of her comfort zone, which is exactly what her Hult experience prepared her for.

“If you care deeply about something, let that anchor you. You don’t need to be fearless. You just need to be willing—and honestly, sometimes a bit lucky.”

Fotios started his career in strategy at a Big Four firm, which exposed him to a wide range of industries and strategic challenges, before transitioning to a family business. He is currently pursuing a PhD in family business succession, alongside his work at Fibran. His time at Hult, defined by its truly global environment, shaped his strategic business perspective and wider worldview.

Fotios Psroulis

Greece

Class of 2021

Group Strategy & Performance, Fibran

“Being surrounded by hundreds of students from different countries and backgrounds at Hult shaped the way I see the world. It helped me become what Diogenes once described as a *kosmopolites*—a citizen of the world.”

Lifelong Learning & Growth After Graduation
