1

Focus on the 5 human skills that matter most

Employers consistently
look for the 5 Cs...

- 
- ✓ **Communication**
 - ✓ **Collaboration**
 - ✓ **Creativity**
 - ✓ **Critical thinking**
 - ✓ **Curiosity**

2

Work on actual business problems

Replace memorizing case studies with solving live challenges...

How can Ralph Lauren
connect with Gen Z?

What's your startup
idea to disrupt the
digital space?

3

Get feedback from real-life professionals

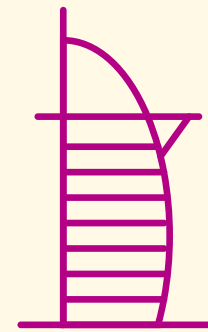

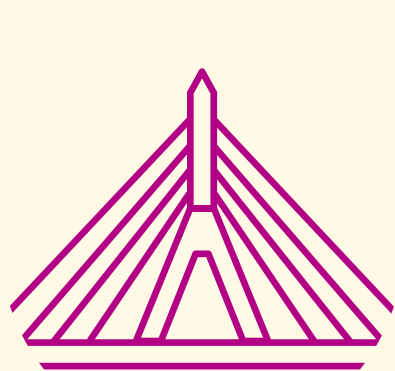

When you present solutions
to real clients, their feedback
teaches you how business
actually works.

4

Build your support network early

Connect with career counselors and peers across global campuses in Boston, London, and Dubai, and business professionals worldwide.

Plus, at Hult, you'll be
matched with a
personal coach.

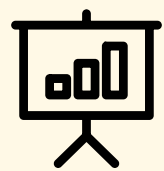

They'll support
you in developing
your professional
network, mindset,
and skills.

5

Create proof of what you can do

Document your work as you go by keeping track of:

Client presentations

Business reports

Project outcomes

Build a portfolio that
shows employers **what
you've accomplished**, not
just what you've studied.

This is how you
graduate with
evidence of real
business impact.
