

Broadpin ERP Wholesale Ready²Use

Go-live in in 6 months

YOUR ERP SOLUTION FOR MID-SIZED AND FAST-GROWING WHOLESALE COMPANIES

With Broadpin ERP Wholesale Ready2use, you stay one step ahead. The modular cloud industry solution for wholesale takes your business to the next level – fast, secure and scalable. AI-powered best-practice processes ensure seamless operations and well-founded decisions across the entire value chain, delivered at a fixed price and tailored to the needs of modern wholesale companies.

Supply Chain Management

Mapping of the entire value chain from procurement through warehousing and logistics to sales. Predictive AI-powered demand planning, automated replenishment, and dynamic price and assortment adjustments.

Finance

Comprehensive financial management and accounting with industry-specific tax and reporting capabilities. Balance sheets, P&L statements and cash flow are fully integrated, providing maximum transparency for confident decision-making.

DRIVING EFFICIENCY ACROSS THE VALUE CHAIN – WITH BROADPIN & ORACLE® FUSION ERP

As a long-standing Oracle® partner, Broadpin delivers tailored end-to-end solutions for digital transformation. Our strengths include deep technology expertise, international delivery capabilities and the ability to provide measurable business value.
