

Broadpin Transportation Intelligence Ready²Use

Go-live in 3-5 months

YOUR TRANSPORTATION MANAGEMENT SOLUTION FOR MID-SIZED AND FAST-GROWING COMPANIES

With Broadpin Transportation Intelligence Ready2use, you're one step ahead. This preconfigured solution accelerator built on Oracle® Transportation Management Cloud takes your logistics operations to the next level. Production-ready from day one, modularly scalable and equipped with best-practice processes for road transportation, delivered at a fixed price and tailored to the needs of modern shippers.

SHIPMENT PLANNING & EXECUTION

End-to-end outbound shipment planning with pre-built processes for load building, consolidation, carrier selection and tendering, all configured and ready to go from day one.

FREIGHT COST MANAGEMENT

Comprehensive freight cost calculation, allocation and settlement with preconfigured rate structures and carrier management, providing full cost transparency across your transportation operations.

VISIBILITY & EXCEPTION MANAGEMENT

Real-time shipment tracking, proof of delivery and automated alert workflows to identify and resolve exceptions before they impact your supply chain.

PRE-BUILT INTEGRATIONS

Ready-to-use integration templates for Oracle ERP (EBS and Fusion Cloud), carrier and tracking platform connectivity via standard EDI and API frameworks, and customer notification templates.

OPTIMIZE YOUR TRANSPORTATION OPERATIONS – WITH BROADPIN & ORACLE® TRANSPORTATION MANAGEMENT CLOUD

As a long-standing Oracle® partner, Broadpin delivers tailored end-to-end solutions for digital transformation. Our strengths include deep technology expertise, international delivery capabilities and the ability to provide measurable business value.
