

Broadpin NetSuite Ready²Use

Go-live in 10 - 12 weeks

YOUR ERP SOLUTION FOR PROJECT-CENTRIC ORGANIZATIONS

With Broadpin NetSuite Ready2use, you stay one step ahead. The pre-configured cloud solution for modern Enterprise Resource Planning takes your business to the next level: rapidly deployed in 8 to 12 weeks, modularly extensible, and equipped with AI-powered capabilities – at a fixed price and built on best practices.

PROJECT MANAGEMENT

Fully integrated from planning through billing. Real-time Budget vs. Actual tracking, resource and skill management, time tracking, and project controlling – all in one system.

FINANCE & CONTROLLING

Accounting, reporting, and cash flow visibility at the click of a button. Accounts Payable (AP), Accounts Receivable (AR), Intercompany, multiple ledgers (US GAAP/IFRS), and regulatory reporting – fully automated.

REVENUE MANAGEMENT

Recurring revenue, milestone-based billing, and hybrid pricing models – efficiently managed. Includes Revenue Recognition and automated invoicing.

AI & REPORTING

AI-powered capabilities for the month-end close, cash flow forecasting, segmented reports, and reliable one-click reports for management, investors, and regulatory authorities.

BUILD BUSINESS RESILIENCE NOW – WITH BROADPIN & ORACLE® ERP

As a long-standing Oracle® partner, Broadpin delivers tailored end-to-end solutions for digital transformation. Our strengths include deep technology expertise, international delivery capabilities and the ability to provide measurable business value.
