

Broadpin Intelligent WMS Ready²Use

Go-live in 8 - 14 weeks

YOUR WAREHOUSE MANAGEMENT SOLUTION FOR MID-SIZED AND FAST-GROWING WHOLESALE DISTRIBUTORS

With Broadpin Intelligent WMS Ready2use, you're one step ahead. This preconfigured solution accelerator built on Oracle® Warehouse Management Cloud takes your warehouse operations to the next level. Production-ready from day one, modularly scalable and equipped with wholesale-specific best-practice processes across the full warehouse lifecycle, delivered at a fixed price and tailored to the needs of modern distributors.

INBOUND & PUT-AWAY

Preconfigured receiving and directed put-away processes optimized for wholesale distribution, including lot management, license plate tracking and rule-based storage assignment from day one.

PICK, PACK & SHIP

Wave-based picking, multi-order batch picking and packing workflows with pre-built RF and mobile device configurations, designed for high order accuracy and throughput

INVENTORY VISIBILITY & TRACEABILITY

Real-time inventory tracking at license plate, lot and location level across single or multiple warehouse sites, with cycle counting processes and FEFO lot management built in.

PRE-BUILT INTEGRATIONS

Ready-to-use integration templates for Oracle ERP (EBS and Fusion Cloud), including order flows, ASN processing and inventory synchronization via standard frameworks.

TRANSFORM YOUR WAREHOUSE OPERATIONS – WITH BROADPIN & ORACLE® WAREHOUSE MANAGEMENT CLOUD

As a long-standing Oracle® partner, Broadpin delivers tailored end-to-end solutions for digital transformation. Our strengths include deep technology expertise, international delivery capabilities and the ability to provide measurable business value.
