TERRAZZO

MADE WITH LOVE

Terrazzo is made with small grains of marble and stone that are pressed and polished to form a tile. The different coloured stones are collected from all over the world and the concrete is given a colour to match. Each tile receives its own mix of pebbles and therefore each delivery may differ slightly from the others.

Terrazzo Puffo

FOR A LIFETIME

Terrazzo tiles are already impregnated at the factory in Portugal, but we recommend treating the tiles again after installation as described in our placement and treatment schedule. Beware of acids and other corrosive agents, these can affect the (natural stone) colors. Treat the tile with green products and it will only become more beautiful!
