## SILIGUN PRO COMPACT SILICONE GUN

The SILIGUN Pro is a heavy-duty 4" compact caulk gun built for professional use. Its all-metal steel and aluminium construction delivers strength and durability while remaining lightweight at 450g. The powerful 24:1 thrust ratio provides extra force for high-viscosity sealants and adhesives, ensuring smooth, consistent flow with less effort. No-drip technology guarantees clean results, and the reinforced trigger, seal punch and hanging hook add on-site convenience. Compatible with all standard 310ml (10oz) cartridges.

### FEATURES

- Compact 4" Metal Pro Caulk Gun
- All-metal steel and aluminum build for long-life in professional use
- Delivers 24:1 thrust ratio for high-viscosity sealants and adhesives
- No-drip technology ensures clean and precise application
- Compact 4" design for tight spaces and maximum control
- Weighs just 450 g – lightweight yet powerful
- Ergonomic handle for comfort and reduced fatigue
- Reinforced trigger mechanism for long-term reliability
- Integrated seal punch and hanging hook for on-the-job convenience
- Compatible with standard 310 ml (10 oz) cartridges
- Patent-pending design
