International calling rates

fonio Phone System · Draft for the Terms and Conditions dated 16 November 2026

Price reference date: 10 October 2026 · Version 1.4 (4 November 2026) · All rates in EUR per minute, excluding VAT

Pay as you go - billed in arrears

Calls not covered by booked bundles or flat-rate plans are charged at the listed rates. Invoices are issued in arrears according to the individual offer. Minimum rate: €0.04 per minute. Billing increments and bundle conditions follow the agreed tariff.

The fonio Terms and Conditions (SaaS Agreement) also apply, in particular the Fair Use Policy for flat-rate calling plans (sections 16.3 to 16.7). This rate sheet forms part of the telephony charging provisions under section 14.12 of the Terms and Conditions.

Select the destination and applicable origin group. Classification uses the originating phone number (CLI) signalled in SIP, not the caller's physical location. The rates below apply to international calls. Standard domestic calls, including mobile calls, follow the separately booked domestic tariff; this A-Z list does not override domestic rates.

Origin codes: * = other originating countries for that destination without a specific origin entry. If a destination lists only *, that entry applies to all origins. EEA = European Economic Area; other codes: AUS, UK, USACAN. If classification is unclear, obtain the applicable rate from fonio before use.

Billing increments: Per-minute rates do not imply universal per-second billing. Billable duration follows the agreed increments. The increment schedule at the end applies only from 1 December 2026.

Bundles and additional terms

Booked bundles and flat-rate plans take precedence within their agreed scope. Overage follows the conditions of the booked plan first; where no separate condition applies, this rate sheet applies.

Domestic minute bundles

Domestic bundle country	Price / 1,000 minutes
Germany / United States	€9.90
Spain	€19.90
Italy / Austria	€14.90
Switzerland	Pay as you go

For standard domestic landline and mobile calls within the respective country. International calls and special, premium and satellite destinations are excluded. The US bundle excludes Alaska and Hawaii. Booking, term, included allowances and overage follow the booked plan.

Booked flat-rate calling plans. The booked plan determines what is included. A domestic flat-rate plan covers standard landline and mobile calls within the agreed country. Switzerland (+41) is excluded from flat-rate calling plans. The Fair Use Policy applies (sections 16.3 to 16.7 of the Terms and Conditions).

EU landline flat rate. Where booked, standard landline calls to the agreed EU countries are also included. Excluded destinations are Estonia (+372), Latvia (+371), Lithuania (+370), Croatia (+385), Slovakia (+421), Luxembourg (+352), Finland (+358), Slovenia (+386), Cyprus (+357), and French numbers with the national prefix 09 (+33 9…). The EU landline flat rate does not cover mobile destinations. International calls outside the flat rate, special, premium and satellite destinations, and non-geographic numbers are charged separately under this rate sheet where available and enabled.

Usage not included. Unless expressly agreed otherwise, flat-rate plans do not cover calls answered, made or forwarded by a fonio AI assistant; automated and bulk calls (including calls using dialling systems); or separately agreed call forwarding and external call legs (section 16.4 of the Terms and Conditions). These are charged under the applicable agreed plan or this rate sheet.

Availability and classification. A listed rate does not guarantee activation. Certain countries, networks, special and satellite destinations may require separate approval. Non-geographic national numbers, such as DE 032 or AT 0720, are not automatically standard landlines and require separate rate classification. Destination labels are rate categories, not a complete prefix list. For unlisted destinations, obtain a rate confirmation from fonio before use.

Price version. This version states rates to five decimal places. All amounts exclude applicable VAT. Individually agreed terms take precedence. Price changes follow the applicable contractual provisions.

Understanding billing increments

Billing increments consist of an initial minimum duration and subsequent steps, both stated in seconds. Each started step is rounded up. The per-minute rate applies to the resulting billable duration.

Increment	Meaning	65-second call
1/1	Per-second billing from the start	65 seconds
60/1	Minimum 60 seconds, then one-second steps	65 seconds
60/60	Each started minute is billed	120 seconds
30/6	Minimum 30 seconds, then six-second steps	66 seconds
12/6	Minimum 12 seconds, then six-second steps	66 seconds
180/180	Each started three-minute block is billed	180 seconds

Separate effective date for billing increments: The following GVA schedule applies only to calls from 1 December 2026, where that billing plan is agreed for the service. Earlier calls use the increments agreed for the call date. This schedule is not applied retroactively from 10 October 2026.

Billing exceptions from 1 December 2026

GVA destinations not listed as exceptions: **1/1 second** from 1 December 2026. More specific prefixes take precedence over general country entries.

Destination / network	Dialling code	Initial (s)	Subsequent (s)
