

PowerRail RW

Kingspan's PowerRail RW has been developed specifically for the installation of solar PV modules on pitched roofs with KS RW QuadCore® Roof Panels for both new build and retrofit projects. PowerRail RW fixes directly to the external profile of the roof panel, making photovoltaic installation faster and easier than ever before.

System highlights

- Lightweight design
- Quick and easy installation
- Cost effective solution
- Fixings included
- Suitable for both new build and retrofit projects
- Compatible with most standard PV modules
- Can be sold as a system with KS RW QuadCore® Roof Panels, mounting system and PV modules or as a solar PV mounting system only
- KS RW QuadCore® Roof Panel coating warranty retained when using this system

System components

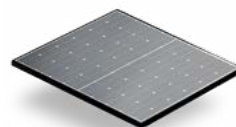

KS RW QuadCore®

Roof sandwich panel with trapezoidal profiling and visible fixing that can be installed in all types of buildings with a minimum roof slope of 7% (4°)

PowerRail RW

PV module fixing clip for quick and easy installation

PV module

Recommended photovoltaic module with up to 21.7% energy efficiency
