Subject: Confirmation Letter

October 05, 2026

Dear Customer,

We have received your request for information regarding material changes in Leaseweb Canada's ("Leaseweb") internal control environment for Leaseweb's Hosting Services.

The most recent SOC 2 Type II audit report for Leaseweb's description of Hosting Services was successfully completed and published on September 8, 2026. The audit covered the design and operating effectiveness of Leaseweb's controls to meet the control objectives related to Hosting Services for the period of July 1, 2025, to June 30, 2026.

For the period July 1, 2026, through the date of this Confirmation Letter, Leaseweb has to the best of its knowledge not experienced significant changes to the design and internal control environment that would impact the audit results as stated in the most recently published SOC 2 Type II report. Please note that Leaseweb, as a normal part of its operations, continually updates its services and technology. Leaseweb's controls must always be evaluated in conjunction with an assessment of the identified user control considerations documented in the SOC 2 Type II report.

This letter is not intended to be a substitute for the SOC 2 Type II report, which aims at providing you with assurance over Leaseweb's internal controls; for this, please refer to the last published SOC 2 Type II report.

We appreciate the opportunity to continue to serve your business needs.

Sincerely,

Signed by:

A stylized, handwritten signature in black ink that reads "Estelle Azemard".
