

Hult Undergraduate Scholarships and Financial Aid

This guide helps high school counselors support students and families exploring financial support for Hult's undergraduate programs.

Supporting students from around the world

Hult brings together students from around the world and understands that families make undergraduate decisions within very different economic, educational, and financial systems. Our mission is to challenge our community to create a better future by making an impact that matters. In keeping with that mission, Hult seeks to recognize the talent, ambition, and potential of incoming students while helping families understand the support that may be available to them.

Financial support starts with merit. Every incoming student is considered for merit-based scholarships, with additional support available through automatic grants and, where appropriate, need-based financial aid. This approach reflects Hult's commitment to welcoming talented students from diverse backgrounds to an international undergraduate experience.

Hult's financial support includes four areas:

- Merit-based scholarships
- Automatic grants
- Need-based financial aid

- The Hult Scholar Grant

Scholarships and grants may be combined, subject to the relevant terms and conditions. Each student's enrollment advisor can help the student and their family understand the options available to them.

Merit-based scholarships

Every incoming student is automatically considered for merit-based scholarships. No separate scholarship application is required. Awards are considered in light of the student's overall profile, including:

- Academic achievement
- Leadership and initiative
- Contributions to their school or community
- Potential for future impact
- Personal qualities that reflect Hult's values and approach to learning

Merit-based scholarship decisions are communicated with the admission decision.

Presidential Scholarship

The Presidential Scholarship is one of Hult's highest honors. It recognizes students with an exceptional profile who demonstrate the potential to contribute meaningfully to Hult's global community and create impact beyond it.

Hult Sibling & Next Generation Scholarship

The Hult Sibling & Next Generation Scholarship is available to students who have a sibling currently enrolled at Hult or who has graduated from Hult, as well as children of Hult alumni.

This automatic grant recognizes families with an existing connection to the Hult community and may help make a Hult education more accessible when more than one family member or generation studies with Hult.

Need-based financial aid

Need-based financial aid is available to students who demonstrate financial need. Eligibility is assessed through a formal financial aid process and is separate from consideration for merit-based scholarships.

Students should submit the appropriate financial aid form as early as possible so Hult can assess their circumstances and provide guidance on available support.

Applicants who are not US citizens or permanent residents should submit a CSS Profile. US citizens and eligible noncitizens should submit the FAFSA instead.

Financial aid applications require families to provide information about their financial circumstances. Counselors can encourage students to begin early, gather the necessary documentation, and respond promptly to any follow-up requests. The student's enrollment advisor can help guide the student and their family through the process and confirm which form applies.

CSS Profile

To assess financial need fairly and consistently, Hult uses the CSS Profile, an internationally recognized financial aid form administered by the College Board. It provides a standardized view of a family's financial circumstances and is required for undergraduate students applying for need-based financial aid, unless they are eligible to submit the FAFSA instead.

US Federal Student Aid (FAFSA)

US citizens and eligible noncitizens who wish to study at Hult can complete the FAFSA to qualify for US government federal student aid. To complete or update the FAFSA, visit www.fafsa.ed.gov.

Hult International Business School's school code is **041432**.

Families are also encouraged to explore national, regional, and private scholarships, loans, and grant opportunities in their home country. Eligibility and availability vary by country, and the student's enrollment advisor can help identify opportunities they may wish to pursue.

For more information about need-based financial aid, please speak to your student's enrollment advisor or email counselors@hult.edu.

Hult Scholar Grant

The Hult Scholar Grant is a highly competitive opportunity for students who demonstrate exceptional achievement, intellectual promise, significant financial need, and a strong connection to Hult's DNA.

Hult aims to **offer full-tuition grants to up to 10% of each incoming undergraduate class**. Hult Scholars are dynamic thinkers, high achievers, and influential leaders who demonstrate an entrepreneurial mindset, a commitment to growth, and the potential to make a meaningful contribution to their communities and the wider world. The grant reflects Hult's commitment to supporting exceptional students whose potential and financial circumstances make this opportunity especially meaningful.

For eligibility criteria, application steps, deadlines, and guidance on how school counselors can support candidates, please refer to the dedicated Hult Scholar Grant resource at hult.edu/counselors.

Scholarship confirmation and renewal

If a student is awarded a scholarship and wishes to receive it, they must confirm their place at Hult by the official confirmation deadline stated in their offer. If they do not confirm by the deadline, the allocated funds may be released to other students.

Scholarships are renewed each year provided that the student:

- Remains enrolled as a full-time student
- Is not placed on academic probation
- Has no honor code violations
- Continues to meet any additional scholarship-specific terms and conditions

We encourage students and families to review the terms of their individual scholarship offer carefully once it's received.

How can you support your students?

Counselors can help students and families by:

- Raising awareness of the different forms of financial support available
- Encouraging students to discuss their circumstances with their enrollment advisor early in the process
- Supporting students in gathering academic and financial documents
- Encouraging families to submit the CSS Profile or FAFSA, where applicable, as early as possible
- Helping students research national or regional funding opportunities
- Reminding students to review scholarship conditions, confirmation deadlines, and renewal requirements
- Identifying students who may be a strong fit for the Hult Scholar Grant and directing them to the dedicated resource

For questions about scholarships or financial aid, please contact the student's enrollment advisor or email counselors@hult.edu.
