

Nova 2s

More Compact, More Precise

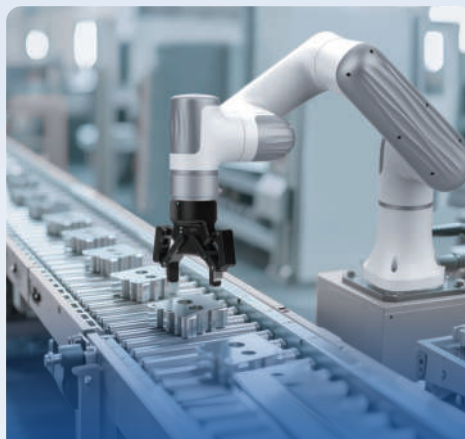

Compact short-reach design
with 20% smaller footprint.

Featuring a high-expansion end-effector
interface for electric grippers and force sensors.

Space-saving Design

Achieved 40% space reduction in the production line using Nova 2s in a cosmetics manufacturer, ideal for compact layouts.

Precision in Tight Spaces

With $\pm 0.05\text{mm}$ repeatability and $\pm 0.3\text{mm}$ absolute accuracy, its short-reach rigid arm ensures stability even in confined areas.

Versatile Control Options

Operate via PC, tablet, or teach pendant with seamless wired/wireless switching for flexible workflow adaptation.
