OUR NEWS

- › Textile-look surfaces for a homely atmosphere
- › Compatible adhesive solutions for perfect processing
- › SOFT MATT UV – soft-touch surface with UV resistance
- › Improved chemical resistance of the sheets

SUSTAINABILITY IS PART OF WHO WE ARE

CO₂ REDUCTION. WE WILL MAKE IT.

We produce by using energy-efficient processes, renewable energy and a high percentage of recycled and biobased plastics. That's how we create surfaces that not only perform but also preserve. senosan® – where environmental responsibility meets modern design.
