TECHNOLOGY
LEADER

Get to know the Klepsch Group network – live at the K trade fair.

The expert teams from **Senoplast**, **Zell Materials**, and **Seletec** will advise you personally on innovative materials, smart applications, and sustainable developments. Feel free to make an appointment for a personal consultation.

NEWS.

✓ **SENOSON® ABSTEXTILE LOOK**

An innovative ABS surface that combines the advantages of a high-quality multi-layer composite with the elegant look and feel of textiles.

✓ **SENOSON® APA 50**

An extruded, thermoformable sheet made from ABS/PA blends. These sheets offer an ideal combination of technical performance and design flexibility, opening up a wide range of possibilities for functional and decorative applications.
