NEWS.

- ✓ **SENOSON® ABSTEXTILE LOOK**
An innovative ABS surface that combines the advantages of a high-quality multi-layer composite with the elegant look and feel of textiles.
- ✓ **SENOSON® APA 50**
An extruded, thermoformable sheet made from ABS/PA blends. These sheets offer an ideal combination of technical performance and design flexibility, opening up a wide range of possibilities for functional and decorative applications.
- ✓ **NEW WEBSITE**
senoplast.com & klepschgroup.com LIVE at the trade fair.

Our expert team will advise you personally on innovative materials, smart applications, and sustainable developments. Feel free to make an appointment for a personal consultation.

 **November 11 – 13 | Booth B08:99**
