

## Room Overview - Center Stage - World Health Summit

This document is an overview of general information, the technical infrastructure and the equipment of the World Health Summit Session Room *Center Stage*.

Please visit our [program](#) to see every session in this room.

---

### **General Information**

Session format of room *Center Stage*: **Keynote (KEY)**

Our Keynotes bring together global health leaders to address key political challenges facing global health and define the essential steps for the way forward to a healthier future for all. Heads of state, ministers, leaders of major organizations, representatives from civil society and business will address the gamechangers shaping our world and their impact on health.

Participant capacity on-site of room *Center Stage*: **620 PAX**

### **Technical Infrastructure & Equipment Information**

On the **stage** of room *Center Stage*:

- A speaker's lectern on the right side of the stage with one gooseneck microphone and a digital display on the front side. The display will show the name of the current speaker at the lectern and the WHS logo.
- Optional up to six seats for speakers including a side table with a name badge and a gooseneck microphone for each speaker. Speakers can also optionally be wired with microphones. If the panel is larger than the designated number of speaker seats, the additional speakers will have a seat reservation in the front row and they will then be able to step up to the lectern to speak.
- The speakers will sit in front of a WHS branded stage back wall.
- Handheld microphones as backup. One microphone is given to the chair at the start of the session.
- One projector screen on each outer side of the stage and two TVs on the floor facing the speakers that will display speakers participating digitally.
- Additional presentation software can be added to the presentation of a speaker, but will have to be checked beforehand to see if it can be implemented. Please inform our speaker department at least two weeks prior to your session, if you plan to use additional software such as Mentimeter, Slido etc. in your presentation.
- The staircase to enter the stage is in the middle.

In the **audience area** of room *Center Stage*:

- Theater seating for up to 620 participants
- The production crew will sit at the right side of Foyer II. This area is not accessible for participants.
- The conference language of the World Health Summit is English. Interpretation equipment will not be provided for participants. Video messages in other languages require English subtitles.

**Disclaimer:** We ask for your understanding that we are not able to provide photos of the described setup, since the World Health Summit will take place at the InterContinental Berlin for the first time. Please be advised that the WHS organizing team reserves the right to make changes to the current setup. Individual requests for changes to the room setup or technical equipment can only be considered to a limited extent. The WHS organizing team will not provide contact details of technicians or sequence director

## Floor Plan
