World Health Summit 2026

From Crisis to Resilience: Innovating for Health

The World Health Summit (WHS) is the leading global platform for health, catalyzing solutions across sectors to improve health worldwide. Held under the leitmotif "From Crisis to Resilience: Innovating for Health," the World Health Summit 2026 will take place from October 11-13 in Berlin, Germany and online. It will bring together more than 400 speakers and 4,000 participants from over 140 countries. Giving a platform for dialogue between leaders and changemakers from politics, science, the private sector, and civil society, confirmed highlight speakers include:

- H.E. John Dramani Mahama, President of the Republic of Ghana
- Tedros Adhanom Ghebreyesus, Director-General, World Health Organization (WHO)
- Carsten Linnemann, Federal Minister of Health, Germany
- Reem Alabali Radovan, Minister for Economic Cooperation and Development, Germany
- Muhammad Yunus, Economist & Nobel Laureate
- Diene Keita, Executive Director, United Nations Population Fund (UNFPA)
- Roy Jakobs, CEO, Royal Philips
- Mohamed Javid Abdelmoneim, International President, Médecins Sans Frontières
- Helen Clark, Chair of the Board, Gavi, the Vaccine Alliance

The main program with over 75 sessions will be livestreamed and accessible without prior registration. Over 45,000 people are expected to follow the WHS online.

This year's World Health Summit is held at a critical point in time with compounding crises challenging health worldwide. Through its central topics, the WHS will highlight the key issues currently shaping global health:

- Global Health Architecture: Reshaping Financing and Governance Across the Global Health Ecosystem
- Pandemic Prevention, Preparedness and Response: Operationalizing Global Health Security
- Health Equity for Women, Children, and Youth: Ensuring Rights, Inclusion, and Participation
- Future-Ready Health Systems: Innovating with AI, Data-Driven Policies, and Workforce Empowerment
- Conflict and Health: Strengthening Resilience, Safeguarding Communities, and Rebuilding Infrastructure

- Environmental Drivers of Health: Securing Sustainable Futures through Climate Action and One Health

Discover how these and other global health challenges are being addressed and what ideas and strategies are driving change across sectors, disciplines, and regions.

About the World Health Summit

The World Health Summit is the leading global platform bringing together science, politics, civil society, and the private sector to catalyze collaborative and innovative solutions for key health priorities.

Its flagship event is the World Health Summit (WHS) held annually in Berlin, attracting more than 4,000 participants on-site and 40,000 online. In addition, each year, a WHS Regional Meeting is hosted in a different part of the world to connect regional perspectives with global strategies. Year-round formats such as the WHS Global Health Dialogues bring together leaders and decision-makers to address strategic issues. Drawing on the expertise of its WHS Academic Alliance, a global network of leading scientific institutions, the WHS connects the scientific community to inform global health agenda.

The World Health Summit is organized by the WHS Foundation GmbH, a 100% subsidiary of Charité – Universitätsmedizin Berlin and was founded in 2009 on the occasion of the 300th anniversary of Charité. President of the World Health Summit is Prof. Dr. Axel R. Pries.
