

Fee Schedule

Effective 01Jan2026

Published 24Sep2026

The Registry is developed for non-profit purposes. However, to sustain and enhance it over time, the Administrator will be charging the following fees for the Registry User's use of the Registry (the "Fees").

1) Annual Subscription Fee

Charged for each Registry User in connection with the Registry receiving access to the Registry Site (at conclusion of the Subscription Agreement):

- Shipping Company, USD 3,000.00
- Freight Forwarder, USD 3,000.00
- Intermediary, USD 3,000.00
- Cargo Owner, Free of Charge

2) Booking Fee:

Booking fee charged per metric tonne (MT) of sustainable marine fuel (SMF) booked. The applicable fee is determined by the date on which the booking is made.

Fuel type	Bookings up to and including 31 December 2026	Bookings from 01 January 2027
Biodiesel	USD 3.00 / MT	USD 3.00 / MT
Bioethanol	USD 3.00 / MT	USD 2.19 / MT
(e/bio)-methane	USD 3.00 / MT	USD 4.05 / MT
(e/bio)-methanol	USD 3.00 / MT	USD 1.62 / MT
e-ammonia	USD 3.00 / MT	USD 1.51 / MT

For blended fuels, the Booking Fee shall apply only to the certified SMF portion of the blend and shall be calculated using the Booking Fee applicable to the relevant SMF comprising that certified portion.

The fee amounts are provided exclusive of value added taxes or other taxes or charges (if and to the extent applicable) as further set out in the Terms of Use, Sec. 13.

Booking fees from 01 January 2027 are calculated based on energy densities of sustainable marine fuels, relative to biodiesel. Formula is as per below, and LCVs are based on publicly available data from EU regulations¹. Where an eligible Sustainable Marine Fuel is not included in the Fee Schedule, Users shall contact Katalist to request its inclusion. Katalist will determine the applicable Booking Fee in accordance with the formula set out below and update the Fee Schedule.

$$SMF \text{ booking fee} = \frac{LCV_{SMF}}{LCV_{Biodiesel}} \times 3.00 \text{ USD}$$
