PLW

Personal load winder

Description

The PLW is a combined personnel and load winch. It allows for the transport of up to 300 kg of person or material. The personnel/load winch is used in combination with approved anchor devices, safety equipment, and harnesses/seat belts. It serves to safely and smoothly transport personnel into containers. The safety operator controls the PLW using the hand crank, thereby raising and lowering the person being secured. The hand crank is equipped with a load pressure brake and locks immediately if the crank is released. The safety operator can also initiate a rescue operation immediately.

Specifications

- Ausführung der PLW: Winde aus Edelstahl und Kunststoffgehäuse / Edelstahlseil 6mm
  Einhandkarabiner aus Edelstahl mit Fallindikator
  Klappbare Handkurbel aus Edelstahl
- Zertifiziert nach: RL 2006/42/EG, EN 1808:2015
- Kurbellänge: 250 mm
- Kurbelkraft: ca. 18 kg
- Nennlast: Max: 300 kg
