

# better.safe

The central idea that  
inspires us.

PERFORMANCE  
you can count on

SAFETY  
for people and products

SUSTAINABILITY  
to safeguard the future  
of our environment

## PERFORMANCE you can count on

- Consistent monitoring of production parameters ensures optimal strap quality
- Traceability of all products guaranteed (QR code on every coil of strap)
- Compatible with most automatic strapping machine heads
- High quality straps ensure maximum OEE
- TEWE® PP strap for horizontal strapping of glass bottles
- TYCOON® PET strap for vertical strapping of aluminum and steel cans (food, beverage, aerosol)

### TYCOON® PET

- Minimal loss of tension after straps are applied (low relaxation)
- Consistently high strap tension without deforming cans

### T-Shark

- Robust battery hand tools for plastic straps

### T-ROLL JUMBO Dispenser for automatic strappers

- Easy to operate
- Increased output (less coil changes)
- Increased safety: less injury due to the coil handling

### METIS analysis tool

Using our unique portable testing device: we measure in real-time on your site the % efficiency of your strap joint and if necessary recommend machine parameter changes to achieve the optimum weld joint

## SAFETY for people and products

Our strapping ensures pallet stability for inhouse handling as well as transport to filling plants.

## SUSTAINABILITY

To safeguard the future of our environment

- All our strapping is fully recyclable.
- Teufelberger offers collection service\* for used PET straps from any supplier. Give your strap a second life!
