

E-Charging at UNTERER Tank & Service

Three high-performance charging stations with 500 kW – ideal for trucks, trailers, and cars with caravans.

Starting in 2025, the Unterer gas station will expand its services to include three high-performance e-charging stations. These are specially designed for trucks with trailers, trailers, and cars with caravans, offering a charging capacity of 500 kW.

Power Charging

500 kW for fast charging

Powering Refrigeration Units

32A connectors for powering the refrigeration units

For All Vehicles

Charging stations for trucks, trailers, and cars with caravans
