Raiffeisen KAG is exempted from all liability in connection with this document and the associated oral presentation, in particular with regard to the updated status, correctness and completeness of the included information/sources of information and the actual occurrence of the forecasts contained therein. Furthermore, no forecasts or simulations of an historical performance in this document constitute a reliable indicator of future performance. In addition, investors whose domestic currency differs from the fund's currency or the portfolio's currency respectively should bear in mind that the yield may also rise or fall due to currency fluctuations.

The contents of this document constitute neither an offer nor a buying or selling recommendation nor an investment analysis. In particular, it shall not serve as a replacement for individual investment advisory services or other types of advisory services. If you are interested in a specific product, together with your account manager we shall be pleased to provide you with the prospectus or the information for investors pursuant Section 21 AIFMG for this product prior to any purchase. Concrete investments should not be made until after a meeting has taken place and subject to discussion and inspection of the prospectus or the information for investors pursuant Section 21 AIFMG. We should like to point out in particular that securities transactions are sometimes subject to a high degree of risk and that the tax treatment depends on the investor's personal situation and may be subject to future changes.

Raiffeisen KAG – or, for real estate funds, Raiffeisen Immobilien Kapitalanlage GmbH – calculates performance based on the published investment fund price, using the OeKB methodology. Individual costs – such as transaction fees, the subscription fee (a maximum of 0 %), the redemption fee (a maximum of 0 %) or custody charges of the investor – and taxes are not included in the performance calculation. These would reduce the performance if they were included.

Please refer to the key information document or the simplified prospectus (real estate funds) for the maximum subscription fee or any redemption fee. Raiffeisen KAG calculates portfolio performances using the time-weighted return (TWR) or money-weighted return (MWR) method [please refer to the specific details in the presentation section] on the basis of the most recent stock exchange prices, foreign exchange rates and market prices as well as securities information systems. Past performance results do not permit any inferences as to the future performance of an investment fund or portfolio. Performance is shown as a percentage (excl. charges) while considering reinvestment of dividends.

The German-language versions of the published prospectuses and the information for investors pursuant to § 21 of the Austrian Alternative Investment Fund Managers Act (Alternative Investmentfonds Manager-Gesetz, AIFMG) as well as the key information documents for the funds of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. may be downloaded from the "Kurse und Dokumente" section of the website www.rcm.at (for some funds, the key information documents may also be available in English).
