Trusted by professionals, loved by pets and owners.

MRI specialist, Anicura Specialized Referral Centre.

"For MRI procedures, we needed a user-friendly solution to keep hearing protection in place. The MPS Head Cover met all our requirements and proved to be MRI safe. Now, every patient is scanned with the MPS Head Covers."

"We care about our fur family—why make them suffer with a cone when they can recover comfortably with the great products from MPS? I've used these products on both my dogs. No cones, just comfortable shirts. Happy patients! Happy owners!"
