

# Making Fuel *Go Further.*

Sulnox Group Plc (AQSE: SNOX | OTCQX: SNOXF) cuts fuel costs and emissions immediately – with zero capital expenditure.

Our patented, 100% organic conditioners improve combustion in all liquid hydrocarbon fuels – a drop-in solution with no disruption.

Proven in 50+ countries, patent protected in 100+, Sulnox sits where sustainability meets performance.

## A Small Cap with a £40bn Potential Market

Sulnox solutions work in all combustion engines, across industries that consume c.70% of the world's oil:

Marine

Mining & Construction

Freight & Logistics

Generators

Rail

Agriculture

Defence

Power Generation

## What Global Adoption Delivers

5.8 million

barrels of oil saved every day:  
More than India consumes daily

848 million

tonnes of CO<sub>2</sub> cut every year:  
Equal to all of Europe's transport  
emissions

Cleaner air for all

cutting NOx and particulates -  
pollutants behind 4.2 million  
premature deaths a year

## Award Recognition

Finalist, AQSE Company of the Year (2024, 2025 & 2026)

Finalist, Multimodal Sustainability Company of the Year (2025)

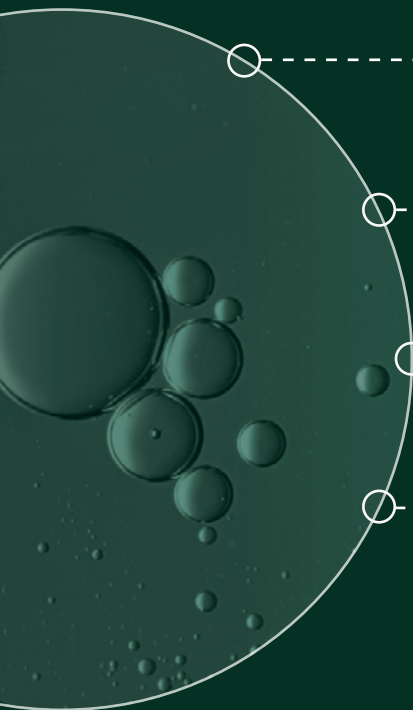

Finalist, British Chamber of Commerce Technological Impact of the Year (2025 & 2026)

Selected from 6,000 global applicants to present at ADIPEC Technical Conference (2025)

Special Mention, DeCarbMine Challenge (2026), top 8 of 63 submissions

Winner, Spring Marine — ESG Shipping Awards (2026), for its Sulnox Eco partnership

## How It Works - Four Mechanisms:

1

Emulsification

Disperses free water into microscopic droplets within the fuel

2

Secondary Atomisation

Fragments larger fuel droplets through micro-explosions to increase surface area and deliver more complete combustion

3

Detergency

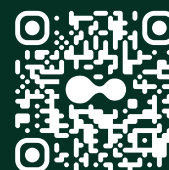

Cleans and decarbonises vital engine components for improved operation

4

Lubricity

Reduces friction dramatically to lower wear and maintenance costs

## Strong Growth, Lean Operations

Driven by distributor expansion and industry adoption.

**EASTERN  
PACIFIC  
SHIPPING**

50+ vessels. Four year deal.  
Major shareholder

**CRYSTAL**

Fleetwide cruise  
ship rollout

**SOCOTEC**

Verified emission  
reductions

**SPRING**  
MARINE

Award-winning fleet  
adoption. Shareholder

**Adriatic Gate  
Container Terminal**  
An ICTSI Group Company

Adopted. Part of a six-  
continent terminal group

Locomotive and  
tamper adoption

**TECHNAVA**

Exclusive agent in  
Greece and Cyprus

**MCQUILLING  
PARTNERS, INC.**

Strategic investor  
and partner

**Drew Marine.**

Maritime chemicals  
supplier in 2,500+ ports
