Luft einschüsse innerhalb der Klebefläche stellen keinen Reklamationsgrund dar, solange die Funktion des Profils nicht beeinträchtigt wird.

Entrapped air within the adhesive area does not constitute a reason for complaint as long as the function of the rail is not affected.

Les inclusions d'air à l'intérieur de la surface de collage ne constituent pas un motif de réclamation tant que le fonctionnement du profilé n'est pas affecté.

Le sacche d'aria all'interno della superficie adesiva non costituiscono motivo di reclamo, a condizione che la funzione del profilo non sia compromessa.
