Bofelle[®]
Moving in with Nature.

With Bofelle[®], you're welcoming more than just a new floor into your home – you're inviting in **character** and genuine **well-being**. In Norwegian, Bofelle[®] means 'roommate', and this is exactly what it feels like: a floor that lives with you and **accompanies you in your everyday life**. Authentic, robust and uncomplicated. Unlike many other types of flooring, Bofelle[®] is completely plastic-free, comprises **real wood** – and looks the part.

Real wood. Designed for real life.

Resistant to pressure.

Bofelle® is very durable and can reliably withstand stresses: even high heels leave no dents. This is made possible by combining a strong oak top layer and a very robust base plate.

24-hour water protection.

Be it a spilled drink or wet shoes: Bofelle® keeps liquids at bay for up to 24 hours, reliably protected from damage caused by minor mishaps. This is thanks to the floor's water-repellent surface, robust edges, a moisture-resistant sublayer and the secure click connection.

Care? Easy peasy.

Resistant to stains and repels dirt: the high-quality surface treatment on Bofelle® provides deep protection, effectively shielding the wood against dust and dirt. This gives you more time to focus on the truly exciting aspects of your life.

Looks better than fake wood, feels better, too.

Natural. In every layer.

Bofelle® is made of wood, which is a renewable material. With oak in the top layer, a resource-saving HDF (high-density fibreboard) panel as the middle layer, and spruce on the underside, every plank is wood through and through.

Feels really good.

The brushed surface of Bofelle® makes it a very special tactile experience. Tangibly soft, pleasantly warm – and as authentic as only real wood can be. The result is a barefoot walking experience that you will never want to do without.

As individual as the tree itself.

No artificial wood decor, no repeating patterns: with Bofelle®, every plank showcases the wood's real, natural grain. For an unmistakable look that cannot be copied.

Only nature feels like nature.

Living with a clear conscience.

The wood for Bofelle® comes from sustainably managed forests and is FSC®-certified. For more responsibility, and for more confidence in what lies beneath your feet.

European quality, short supply routes.

Bofelle® is made at modern production facilities in Europe, upholding the highest manufacturing standards, ensuring safe procedures, minimising transport distances, and guaranteeing complete transparency of origin.

Stays beautiful for many years to come.

Grows old with you.

Bofelle® can be touched up, repaired, or if necessary, even partially replaced. This extends its service life tremendously, making an authentic wood floor a sustainable choice.

Good for your indoor climate.

Bofelle® is emissions-tested, does not contain plasticisers, and is very allergy-friendly. The eco-INSTITUT-label certifies that with Bofelle® as your roommate, you can breathe easy at home without a care.

No harmful substances. Even at the end of its lifecycle.

When Bofelle® reaches the end of its lifecycle, it can be safely and responsibly disposed of without any issues. It contains absolutely no substances that can harm people or the environment.

Heats efficiently. Saves energy.

Due to its high thermal conductivity and low thickness, Bofelle® works perfectly when combined with underfloor heating, guaranteeing even more cosy comfort and lower costs.

Calm

Just like real roommates, **Bofelle®** comes with various personalities: from calm and balanced, to active and lively, to rustic and temperamental. Each brings **its own character** and unique radiance.

Your new roommate

Rustic

Lively

Bofelle®

Your new
roommate

Calm

He likes order, avoids the hustle and bustle, and his composure brings a pleasant clarity to your home. His surface is uniform, and the grain is subtle: like a quiet observer that lets the room breathe. If you value harmony and restraint, you will find Calm to be a perfect companion.

Bofelle® 209
Oak Transparent Calm

The colour **Transparent** in the **Calm** grading is available in widths 209 and 181 as MattPro brushed and OiledPro deep brushed.

Lively

He is full of energy, bringing movement and surprising you with small details. The grain is varied, with visible colour and structure differences, just like someone who contributes to the conversation in their own lively way and brings their personality into the room. Lively suits all those who want to live life in all its facets.

**Your lively
roommate**

The colour **Transparent** in the **Lively** grading is available in widths 209 and 181 as MattPro brushed and OiledPro deep brushed.

The colour **Authentic** in the **Lively** grading is available in widths 209 and 181 as MattPro brushed and OiledPro deep brushed.

As lively as life itself.

Bofelle® 181
Oak Soft White Lively

The colour **Soft White** in the **Lively** grading is available in widths 209 and 181 as MattPro brushed and OiledPro deep brushed.

Bofelle® 209
Oak Soft Brown Lively

The colour **Soft Brown** in the **Lively** grading is available in widths 209 and 181 as **MattPro** brushed and **OiledPro** deep brushed.

Rustic

Both his feet are firmly on the ground, he shows the corners and edges of his personality, and is proud of his history. Knots, cracks and a striking grain make him unmistakable, like a friend who isn't trying to be everyone's favourite, keeping it real instead. Those seeking originality and authenticity will find themselves immediately at home with Rustic.

A striking stage
for showcasing
real interactions.

The colour **Transparent** in the **Rustic** grading is available in widths 209 and 181 as MattPro brushed and OiledPro deep brushed.

The colour **Soft White** in the **Rustic** grading is available in widths 209 and 181 as MattPro brushed.

The colour **Authentic** in the **Rustic** grading is available in widths 209 and 181 as MattPro brushed.

The colour **Soft Brown** in the **Rustic** grading is available in widths 209 and 181 as MattPro brushed.

Bofelle® 209
Oak Authentic Lively

Bofelle® is a plank with a 3-layer structure that opens up many design possibilities. You can choose from two widths, three wood grains with very distinctive characters, four colour variants and two surfaces. This allows you to select the floor that best suits your lifestyle and needs.

OiledPro is a ready-for-use oil surface that composed of high-quality, natural ingredients. Applying two layers of this natural oil allows it to penetrate deeply into the wood, creating visible warmth, tangible depth, and high durability in day-to-day use.

MattPro is an ultra-matt lacquer that makes wood look virtually untreated: uncompromisingly pure and natural. At the same time, it reliably protects against dust, dirt and liquids, is very easy to care for, and offers higher UV stability than conventional lacquers.

Bofelle® is a **3-layer plank** available in two widths: 181 mm and 209 mm. Its total thickness is 9.6 mm, including a 1.2 mm thick top layer. The **innovative 5G Dry® Click system** rounds off the product.

Top layer
approx. 1.2 mm deep brushed oak wood

Middle layer
6.8 mm water-resistant HDF
(high-density fibreboard)

Surface treatment
OiledPro or MattPro

Sublayer
1.6 mm spruce wood

Perfect for underfloor heating

Thanks to its low thickness, Bofelle® is ideal for use with underfloor heating, efficiently bringing warmth into the room, thereby reducing your energy consumption and heating bills.

Water-tight 5G Dry® fold-down installation system

The 5G Dry® technology is a click-connection system for floors patented by Välinge that combines easy, adhesive-free installation with high water resistance. The precise fit and perfect contours act as a seal, reliably preventing liquids from penetrating the joints – protecting both the flooring and the subfloor from moisture damage.

5G Dry® leakproof fold down installation system
