

PORSCHE

Colours

A wide-angle photograph of a desert canyon. A paved road winds through the valley, curving to the left and then right. In the distance, a dark-colored car is driving away on the road. The canyon walls are composed of layered, reddish-brown rock formations. The sky is clear and blue. The overall scene is captured during the golden hour, with warm light illuminating the landscape.

Every Porsche is a true expression of personal freedom and individuality for its driver. For your Porsche, you can choose from our standard range of 5 non-metallic and 5 metallic colours. Alternatively, you can provide a sample of your favourite colour and we will mix it for you, making your Porsche truly unique. To discover which interior best complements your chosen exterior, compare the code numbers of the exterior colours with those of the upholstery on the insert card.

This will give you an impression of how your Porsche will look.

Dashboard

In addition to the standard range of paints and upholsteries, a wide range of special requests can be fulfilled before your car leaves the factory. The Porsche Exclusive range has been developed to completely personalise your Porsche.

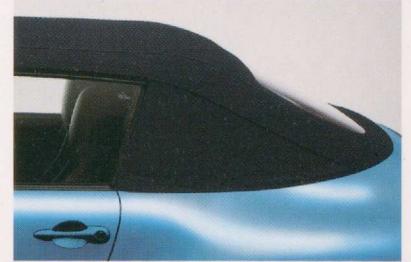

From luxurious high gloss burr walnut wood fittings to perfectly integrated front and rear spoilers you can have almost anything you want. Using only the finest materials fitted by skilled Porsche craftsmen, the Porsche Exclusive programme

guarantees that all changes and additions ideally complement your car, making your Porsche a truly individual purchase. For further ideas on this programme, please refer to the Porsche Exclusive & Tequipment Catalogue.

To make it easier to choose the interior trim and the paint finish, we have listed several particularly attractive ways of combining them.

Just compare the body colour code numbers with those for the interior colours on the cards. Hold the samples next to one another, and you will get an initial impression of how your Porsche will look.
