New and proven: Selected product highlights and new editions from our extensive range of more than 80,000 Porsche Classic Genuine Parts. Our Porsche Classic Partners and Porsche Centres will be pleased to advise you.

Just don't be fooled: Louise Piëch's 911 Turbo may have the "Carrera" logo on the engine cover, but inside there is a turbocharger that increases the boost pressure. Even though the original "turbo" logo is available from the Porsche Classic spare parts programme, it is not used on this vehicle.

Accessories

Off-road lifestyle: Turn the Cayenne E1 into a true adventure tool with the new roof transport system base support. The roof transport system, which was designed for vehicles with guide rails, enables a roof box, roof tent or other roof structures to be installed easily. Included in the scope of delivery are roof racks with corresponding bases, a mounting kit and a matching transport bag. It can be recognised as a genuine Porsche accessory thanks to the Porsche logo on the feet and the geo-coordinates 38°44'14"N 104°52'51"W on the cross beams – a reference to the E1 development project, internally named "Colorado". The roof rack has a total dynamic payload of 75 kilograms, making it ideal for tackling demanding off-road tours while also meeting the highest safety standards.

These Porsche Classic assembly gloves are inspired by the famous Dress Mackenzie tartan seat pattern from the 911 Turbo, which was given to Ferry Porsche to mark his 67th birthday. The grippy palm is decorated with an exploded view of parts of the Turbo-specific exhaust system, with a colour-contrasting turbocharger. The silhouette of the 911 Turbo, with its characteristic rear wing, adorns the back of the hand and has an embedded magnet. This practical magnet not only securely holds small fasteners such as screws and nuts, but also makes the gloves easy to attach to your toolbox.

Sturdy size 11 assembly gloves (one pair) in a characteristic Porsche Classic design, for use in the workshop or in the event of a breakdown. In particular, the parts of the gloves frequently put under significant strain have been heavily reinforced to ensure a good grip. The PORSCHE logo superimposed on the back of the hand in durable Black rubber is reminiscent of seat fabric designs well known from their use in classic cars. The hook-and-loop fastener also bears the PORSCHE logo. Integrated into the back edge of the hand: a magnet for holding screws or other small magnetic parts. The Porsche Classic assembly gloves are also available in sizes 8, 9 and 10.

Certified as personal protective equipment (PPE) against mechanical risks in accordance with DIN EN 388 (2 1 1 X).

THE PLACE FOR PORSCHE ORIGINALE

Just drop into your Porsche Classic Centre
or your Porsche Classic Partner.
They have something special
waiting for you.

A mark of quality:

All products manufactured by Porsche – and therefore all Porsche Classic Genuine Parts – are marked with the Porsche trademark known as the “P in the triangle” either directly on the part itself or on the sales packaging.

Please only use genuine Porsche spare parts for your vehicle. You can obtain these parts from authorised Porsche dealers. Your Porsche Partner is familiar with the verified range of parts and will be happy to advise you. Porsche will not accept any liability for damage caused by the use of spare parts or accessories not authorised by Porsche.

The safety of the vehicle may be affected, even if a supplier of accessories or parts has obtained a general operating licence. The huge variety of products available on the accessories market means that Porsche is not able to verify such parts. Please note that the guarantee for your vehicle may also be affected if you use parts that are not authorised by Porsche. Porsche reserves the right to alter the design, equipment and scope of delivery without prior notice. Colour tones and materials may differ from those illustrated. Errors excepted.

Due to country-specific legislation and requirements, product contents may differ from those described and individual items may not be available for all models in certain countries.
