

PORSCHE

Colours

Every Porsche should be a true expression of personal freedom and individuality for its driver. For your Porsche, you can choose from our standard range of

5 non-metallic and 7 metallic colours. Alternatively, you can provide a sample of your favourite colour and we will mix it for you, making your

Porsche truly unique. To discover which interior best complements your chosen exterior, compare the code numbers of the exterior colours with

those of the upholstery on the insert card. This will give you an impression of how your Porsche will look.

Dashboard

In addition to the standard range of paints and upholsteries, a wide range of special requests can be fulfilled before your car leaves the factory. The Porsche Exclusive range has been developed to completely personalise your Porsche.

From luxurious high gloss burr walnut wood fittings to perfectly integrated front and rear spoilers you can have almost anything you want. Using only the finest materials fitted by skilled Porsche craftsmen, the Porsche Exclusive programme

guarantees that all changes and additions ideally complement your car, making your Porsche a truly individual purchase. Further information on this programme is available from your local Porsche Center.
