Parts

New and proven: Selected product highlights and new editions from our extensive range of more than 80,000 genuine parts for classic Porsche sports cars. Our Porsche Classic Partners and Porsche Centres will be pleased to advise you.

For fuel consumption, CO₂ emissions and efficiency class data, please refer to page 103.

For the ultimate sports car experience, the 911 Spirit 70 is best driven with the top down so you can experience the zest for life of the 1970s up close. The Olive Neo colour was developed specifically for this special model. The model features a unique touch with safety stripes added to the front bonnet, which at the time were designed to make small sports cars more visible on racetracks and motorways.

Classic Performance Prototipo steering wheel
Part no. PCG901347AA
For racing use only. Not approved for road use.
911 F model (1965–1973)

The classic three-spoke sports steering wheel with a horn button made of genuine leather, embossed with a historic Porsche Crest.

The name of the "Prototipo" sports steering wheel is derived from its use in Porsche prototype race cars, where it was first used in the late 1960s. The limited space in the cockpit of these race cars made a steering wheel with a small diameter necessary.

Black leather and "PORSCHE" lettering with a White background underscore the iconic design. The Prototipo lettering is also rendered in White, a nod to the prototype race cars from Zuffenhausen that are usually painted White. The subtle Black stitching elegantly rounds off the design.

Cayenne E1 (2003–2010)

Ready for all kinds of adventures. The four-piece set of durable off-road floor mats protects the footwell of the first generation Cayenne and enhances its appearance. The dirt-repellent floor mats have a stylish design with White "PORSCHE" lettering. They are perfectly tailored to the contours of the footwell of the Cayenne. Suitable for left-hand-drive vehicles.

Set of front/rear mud flaps with mounting hardware
Part no. PCG504821A
Only for vehicles without mud flaps as standard.
Cayenne E1 (2003–2010)

The right companion for any adventure on and off the road. The mud flaps for extended off-road driving prevent snow, water and road dirt from being thrown backwards while also visually reinforcing the off-road character of the first generation Cayenne. Spacers are included to ensure a secure and precise fit for vehicles, whether or not they are equipped with wheel arch extensions. Mud flaps in a characteristic Porsche design with raised "PORSCHE" lettering are available for model years 2003 to 2010.

Please only use genuine Porsche spare parts for your vehicle. You can obtain these parts from authorised Porsche dealers. Your Porsche Partner is familiar with the verified range of parts and will be happy to advise you. Porsche will not accept any liability for damage caused by the use of spare parts or accessories not authorised by Porsche.

The safety of the vehicle may be affected, even if a supplier of accessories or parts has obtained a general operating licence. The huge variety of products available on the accessories market means that Porsche is not able to verify such parts. Please note that the guarantee for your vehicle may also be affected if you use parts that are not authorised by Porsche. Porsche reserves the right to alter the design, equipment and scope of delivery without prior notice. Colour tones and materials may differ from those illustrated. Errors excepted.

Due to country-specific legislation and requirements, product contents may differ from those described and individual items may not be available for all models in certain countries.
