

Can you help keep flu under control?

Creating a flu vaccination voucher: quick and easy

The employer receives an email (from Mensura) containing the link to create vouchers (from 15/9 onwards).

Option 1

The employer forwards the link to employees who wish to receive a flu vaccination. Each employee uses the link to create their own personal voucher.

Option 2

An internal staff member uses the link to create an individual voucher for each employee who wishes to receive a flu vaccination. The vouchers are then provided to the respective employees.

Steps for the employee (or the internal staff member creating the voucher)

- 1 Select the desired language.

- 2 Enter the following information:

- Email address
- First name
- Last name
- Date of birth

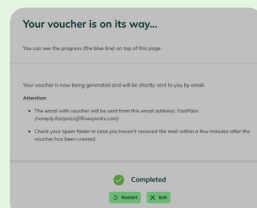

- 3 Click "Start".

- 4 Read the information page and click "Start creating voucher" at the bottom of the page.

- 5 An intermediate page will indicate that the voucher is being created.

This takes 45 seconds.

- 6 The voucher is immediately available and can be printed right away.

Click the **green bar** to download your voucher.

- 7 The voucher is also sent by email to the specified email address, together with additional information. Be sure to check your spam folder as well.

Tips for employees without an email address

- Use a personal email address if available.
- Use the email address of an internal contact person who can receive the voucher.
- Print the voucher immediately after creating it.
- Share the voucher through another channel (e.g. SMS, WhatsApp, or another messaging service) so the employee can save it on their smartphone if needed.
